Preface

The *Digest of Public General Bills and Resolutions* has been prepared since the second session of the 74th Congress in 1936. Its principal purpose is to furnish, in summary form, the essential features of public bills and resolutions and changes thereto made during the legislative process. It also indicates committee and floor action and includes sponsor and cosponsor, identical bill, short title, and subject indexes. The final issue for a session should be retained permanently.

Each publication is divided into three major parts:

1. Action Taken During the Congress: This part, reflecting action taken throughout the Congress (including first session action in second session publications) is broken down into two sections: "Public Laws" and "Other Measures Receiving Action." The "Public Laws" section contains digests of public laws in order of enactment, their legislative histories, and a cross-index of public laws and originating legislation. "Other Measures Receiving Action" numerically lists the most current revised digests with their legislative histories, including, as appropriate: dates reported from committees, report numbers, dates considered on the floor, dates passed, conference actions, and date of presidential action.

A legislative anomaly occurred in the 99th Congress which resulted in the same House Joint Resolution (H.J. Res. 738) being signed twice by the President, thus causing the designation of two public law numbers for the same piece of legislation. Due to the inability of the computer system to accommodate such an anomaly, Public Law 99-500 fails to appear in the "Public Laws Section" of this publication. However, Public Law 99-591 is the updated version of Public Law 99-500 and appears in its proper places in the publication.

2. Digests of Public General Bills and Resolutions: This part includes digests of all public bills and resolutions in numerical order as introduced. Private measures are identified by bill number only.

If a measure is identical to one introduced in the same Congress, reference is made from higher numbered measures to the earlier measure. With respect to measures having multiple sponsors, only the member whose name appears first on the bill is indicated; however, all sponsors are listed in the "Index by Sponsor and Cosponsor."

3. Indexes to Digested Bills and Resolutions:

INDEX BY SPONSOR AND COSPONSOR. This index provides a list of all public and private bills and resolutions sponsored and cosponsored by each Member of Congress, with a further breakdown by subject matter.

INDEX OF IDENTICAL BILLS. This index includes all measures which, as introduced, are word-for-word identical. These measures appear under the number of the first identical bill, with cross-references for each succeeding bill.

READEX FICHE best copy available

SHORT TITLE INDEX. This is an index of short titles of bills containing such titles in their texts. It is arranged alphabetically according to the first word of the title.

SUBJECT INDEX. This index identifies public bills and resolutions by subject. The index is preceded by a list of principal subject headings under which more detailed index entries may be found. Measures which have received action and appear in either the "Public Laws" section or the "Other Measures Receiving Action" section are denoted by an asterisk. Index entries for all public laws are also included.

Preparation of the *Digest* is the responsibility of the Bill Digest Section, American Law Division, Congressional Research Service, Library of Congress.

Prohibits any amendment to the SPR Plan transmitted to the Congress by the Secretary of Energy from becoming effective until 60 days after transmittal, unless the President determines that such amendment is required by a severe energy supply interruption or by Federal obligation under the international energy program.

Repeals the concurrent resolution congressional review requirements regarding a presidential decision to stop filling the SPR and to continue selling Naval Petroleum Reserve oil. Provides that such a presidential decision may become effective on the date the Congress is notified and shall terminate by nine months later.

Directs the Secretary to implement a test drawdown and distribution of about 1,100,000 barrels of crude oil from the SPR in order to evaluate the implementation of the SPR Plan.

Requires that any modification of the Plan be transmitted to the Congress within 15 calendar days prior to the offering of any crude oil for sale under this Act.

Requires that at least part of the crude oil be sold to or exchanged with non-Federal governmental entities.

Prohibits the Secretary from selling any crude oil under this Act at less than 90 percent of the sales price of the comparable crude oil being sold in the same area at the time.

Requires the Secretary to acquire crude oil for the Reserve in the same amount as the total amount of crude oil sold pursuant to the test drawdown and distribution.

Requires the Secretary to transmit to the Congress a detailed explanation of any test implemented under this Act.

Extends all standby energy authorities with respect to the International Energy Program through June 30, 1988. Terminates all other general emergency authorities at midnight, June 30, 1985.

Sets forth congressional veto procedures for any plan of action by the U.S. Attorney General for an international energy emergency whereunder normal business transactions (Type I transactions as defined in the International Energy Agency Emergency Management Manual) would be afforded defenses to antitrust and breach of contract actions, even though such normal business transactions are neither approved by the International Energy Agency nor mandated by the U.S. Government. Requires submission to the Congress of any such proposed new plan of action. Permits such proposal to take effect if the Congress fails to enact a joint resolution of disapproval within 90 days after submission.

Title II: Reports Concerning Coal Imports - National Coal Imports Reporting Act of 1985 - Requires the Secretary of Energy, through the Energy Information Administration, to: (1) provide quarterly reports and annual summaries to the Congress regarding the status of United States coal imports; and (2) report to the Congress regarding the findings of a comprehensive analysis of the coal import market in the United States. Declares that titles I and II of this Act may be cited as the Export Administration Amendments Act of 1985. *Title I: Amendments to Export Administration Act of 1979* - Amends the Export Administration Act of 1979 (the Export Administration Act) to amend the congressional findings and declaration of policy with respect to export controls. Declares that it is U.S. policy to: (1) encourage friendly countries to cooperate in restricting the sale of goods and technology that can harm U.S. security; (2) sustain vigorous scientific enterprise by protecting the ability of scholars freely to communicate their research findings; (3) control the export of goods and substances banned or severely restricted in the United States; (4) cooperate with allies and other countries to minimize dependence on imports of critical resources from potential adversaries and in developing alternative supplies of such resources; and (5) continue to object to exceptions to the International Control List for the Soviet Union.

Authorizes the Secretary of Commerce (the Secretary) to require validated licenses (rather than qualified general licenses) authorizing multiple exports, including distribution licenses, comprehensive operations licenses, project licenses, and service supply licenses. Provides that distribution licenses shall authorize exports to distributors in countries other than controlled countries. Sets forth factors to be considered in determining whether to grant a distribution license.

Prohibits using a distribution license or a comprehensive operations license in connection with exports to controlled countries.

Directs the Secretary to establish a control list stating license requirements for exports of goods and technologies to all destinations to which such exports are controlled under the Export Administration Act. (Current law requires the Secretary to establish a commodity control list consisting of any goods or technology subject to export controls.)

Prohibits the imposition of national security or foreign policy export controls on goods or technology if they are available in sufficient quality and quantity from sources outside the United States so that the imposition of export controls would be ineffective. Directs the President to give strong emphasis to bilateral or multilateral negotiations to eliminate foreign availability. Directs the Secretary and the Secretary of Defense to cooperate in gathering and assessing information relating to foreign availability.

Directs the Secretary to keep the public fully informed about changes in export control policy and procedures.

Authorizes the President to prohibit or curtail: (1) reexports of goods and technologies subject to national security export controls; and (2) the transfer of such goods or technologies to embassies and affiliates of proscribed countries.

Deletes the provision which requires the Secretary to explain the denial of an export license application. Deletes the provision which declares that regulations issued to carry out national security export controls shall not be based on the assumption that there are effective safeguards against diversion of critical technologies to military use by countries that pose a threat to U.S. security.

Directs the President to establish as a list of controlled countries those countries designated as communist countries in the Foreign Assistance Act of 1961. Authorizes the President to add or remove a country from such list if the President determines that exports to such country would or would not harm U.S. national security. Sets forth factors the President shall consider in making such determination. Excludes from export license requirements certain exports to countries which are members of the agreement of the Coordinating Committee for Multilateral Export Controls (the Coordinating Committee).

Directs the Secretary to review at least once a year the list of goods subject to national security export controls. Directs the Secretary to publish notice of the review and provide interested parties with an opportunity to comment.

Declares that it is the intent of the Congress to encourage the use of multiple validated export licenses in lieu of individual validated licenses. Prohibits the Secretary from requiring an individual validated export license for replacement parts which are exported to replace on a one-for-one basis parts that were in a good that has been lawfully exported. Requires the Secretary to review periodically the procedures relating to multiple validated export licenses. Authorizes the Secretary to make goods which are subject to national security export controls eligible for a distribution license and other licenses authorizing multiple exports of goods. Makes technology and related goods which are subject to national security export controls eligible for a comprehensive operations license.

Directs the Secretary to establish as one of the criteria for the removal of goods or technology from the list of goods subject to national security export controls the anticipated needs of the military of countries to which exports are controlled for national security purposes.

Deletes as an objective of multilateral export controls negotiations reduction of such controls to a level acceptable to and enforceable by all governments participating in the Coordinating Committee. Adds several new objectives to such negotiations.

Requires any nongovernmental U.S. entity which enters into commercial agreements with the government of a controlled country that is intended to result in the export of unpublished technical data of U.S. origin to report such agreement to the Secretary. Excludes educational institutions from such requirement.

Directs the Secretary to conduct negotiations with other countries, including countries not participating in the Coordinating Committee, to restrict exports of goods or technology that would contribute to the military potential of countries that would be detrimental to U.S. security.

Directs the Secretary, if there is reliable evidence that exports which were subject to national security controls have been diverted to an unauthorized use or consignee: (1) to deny all further exports to or by parties who divert or conspire to divert any goods or technology subject to national security controls to an unauthorized use or consignee; and (2) to take any other necessary steps to deter further unauthorized use of previously exported goods or technology.

Prohibits imposing a national security export control on a good solely because it contains an embedded microprocessor if the microprocessor cannot be used or altered to perform functions other than those it performs in the good in which it is embedded. Permits imposing an export control on such a good only if the functions of the good are such that the good, if exported, would make a significant contribution to the military potential of a country that would be detrimental to U.S. national security.

Directs the Secretary and the Commissioner of Customs, in consultation with the Director of the Federal Bureau of Investigation, to help manufacturers or persons engaged in handling goods or technology subject to national security controls to develop security systems to prevent violations or evasions of such controls.

Requires Federal agencies to keep records of their actions with respect to export license applications or revisions of the list of controlled commodities.

Establishes a National Security Control Office within the office of the Under Secretary of Defense for Policy in order to assist the Secretary of Defense in carrying out responsibilities related to the national security export controls.

Excludes agricultural commodities from the national security export controls.

Requires the Secretary of Defense, in developing the list of militarily critical technologies, to give emphasis to keystone equipment which would reveal or give insight into the design and manufacture of a U.S. military system. Requires such list to include technologies that are not available from sources outside the United States.

Directs the Secretary and the Secretary of Defense to integrate the list of militarily critical technologies into the control list.

Requires the President to resolve any dispute between the Secretaries over whether a good or technology on the list of militarily critical technologies should be integrated into the control list.

Requires that the integrated list include only: (1) goods or technologies which are not possessed by nor available to controlled countries; and (2) goods or technologies for which functionally equivalent goods or technologies are not possessed by nor available to such countries.

Directs the Secretary of Defense to establish a procedure for annually reviewing the goods or technology on the list. Authorizes the Secretary of Defense to add items to the list. Directs the President to resolve disagreements between the Secretaries over whether items should be added to or removed from the list.

Requires the establishment of adequate export controls for militarily critical technology and keystone equipment to be accompanied by suitable reductions in the controls on the products of that technology and equipment.

Directs the Secretary of Defense to report to the Congress within one year of enactment of this Act on the impact that transferring items on the list of militarily critical technologies to controlled countries has had or will have on the military capabilities of those countries.

Directs the Secretary to make a foreign availability determination on the Secretary's own initiative after receiving an allegation of such availability from an export license applicant or upon request of the appropriate technical advisory committee established under the Export Administration Act. Directs the Secretary to accept the applicant's representations made in writing and supported by evidence unless they are contradicted by reliable evidence, expert opinion, or intelligence information. Lists factors to be considered in making such determination.

Requires the Secretary, if the negotiating efforts are not successful within a specified time, to take into account the foreign availability of the goods or technology subject to a foreign policy export control. Sets forth procedures to deal with such foreign availability.

Prohibits any short supply export control from affecting any contract to harvest unprocessed western red cedar from State lands which was entered into before October 1, 1979, and the performance of which would make red cedar available for export. Prohibits any short supply export controls on any agricultural commodity or on any forest or fishery product from affecting any contract to export entered into before the date on which the controls are imposed.

Provides that the decision on the award of legal fees and other expenses by the adjudicative officer of a Federal agency that conducts an adversary proceeding shall be the final administrative decision.

Bars any such decision when the Government appeals the underlying merits of an adversary adjudication until a final and unreviewable decision is rendered by the court on appeal or until the underlying merits of the case have been finally determined pursuant to the appeal.

Amends the definition of a "party" which is eligible to be awarded legal expenses to exclude any individual whose net worth exceeds $2,000,000 (currently $1,000,000) and any entity whose net worth exceeds $7,000,000 (currently $5,000,000), including any local government.

Indian Education Technical Amendments Act of 1985 - Amends title XI (Indian Education) of the Education Amendments of 1978 (the Act) to revise provisions relating to Indian education.

Directs the Secretary of the Interior (the Secretary) to establish alternative or revised academic standards for the basic education of Indian children in Bureau of Indian Affairs (BIA) schools when such alternative or revised standards are submitted by the tribal governing body or the designated school board, unless the Secretary: (1) specifically rejects such standards for good cause; and (2) notifies in writing each affected tribe and local school board of such rejection. Makes such rejection final and not reviewable.

Requires the tribal governing body or the designated school board to submit its proposal for such alternative standards within 60 days after its waiver of the BIA standards.

Revises the deadline for contract school compliance with such minimum academic standards or alternative or modified standards. Prohibits the Secretary from rescinding or failing to renew a contract because of noncompliance with such standards until at least one year after notifying the school of a failure to comply. Requires the Secretary, during such one-year period, to give technical assistance to help the school to comply.

Directs the BIA to establish a consistent system of fiscal control and fund accounting for all contract schools, either directly or through contract with an Indian organization, within one year after the enactment of this Act.

Deletes certain references to personnel actions based on failure to implement or meet such standards.

Prohibits the closing, consolidation, or substantial curtailment of any program or school or peripheral dormitory operated by the BIA, except on a temporary basis where plant conditions constitute an immediate hazard to health or safety.

Deletes references to parents under requirements for notification and consultation during consideration or review of such closures, consolidations, or curtailment.

Requires, when a formal decision is made to close, consolidate, or substantially curtail a school, that notification be given to the affected tribe, tribal governing body, and designated school board at least six months prior to the end of the school year preceding the proposed effective date.

Revises requirements for studies and reports relating to such closures, consolidations, or curtailments. Directs the Secretary to report to the Congress, the affected tribe, and the designated local school board describing the process of active consideration or review. Requires such report to include specified information on: (1) the impact of such action on the students (especially those students with educational and social needs); and (2) the consultation regarding such students conducted between the various service providers, parents, certain tribal groups, and the Director of the Office of Indian Education within the BIA.

Specifies that a prohibition against actions within a specified time period in furtherance of such proposed closures, consolidations, or curtailments refers to irreversible actions.

Revises provisions relating to BIA school boundaries. Prohibits any change (as well as any establishment) of any attendance area with respect to any BIA school unless the tribal governing body (or the designated local school board) has been given: (1) at least six months notice; and (2) the opportunity to propose alternative boundaries. Allows any tribe to petition the Secretary for revision of existing attendance area boundaries. Directs the Secretary to accept such proposed alternative or revised boundaries unless the Secretary finds, after consultation with the affected tribe or tribes, that such revised boundaries do not reflect the needs of the Indian students to be served or do not provide adequate stability to all of the affected programs.

Repeals provisions which require that the Director of the Office of Indian Education (the Director) supervise all contract functions relating to education.

Directs the Assistant Secretary for Indian Affairs (the Assistant Secretary) to provide for the adequate coordination between the affected BIA Offices and the Office of Indian Education to facilitate the consideration of all contract functions relating to education, but requires the Secretary to review the applications for the new school starts which were filed with the BIA before October 1, 1984, under the rules and guidelines in effect on the date the application was filed.

Requires inclusion of a five-year plan for capital improvements for Indian education in the annual Budget.

Revises provisions relating to the BIA program for the operation and maintenance of Indian education facilities. Deletes a reference to the Director as responsible for implementation of such program. Includes, under required components of such program, a system for the conduct of routine preventive maintenance. Prohibits program funds from being authorized for expenditure by specified officials unless certain conditions relating to necessary maintenance are met. Repeals a requirement that the Director supervise all BIA education facilities. Extends the deadline for implementation of such program until 270 days following the enactment of this Act.

Deletes a reference to costs associated with operating education and recreational programs on a 12-month basis among those special factors to be considered in the establishment of an allotment formula for a minimum annual amount of funds for each BIA or contract school.

Deletes reference to a separate fund, apart from such allotments, for payment of monetary awards and quality step increases to such school employees. Requires that any supplemental appropriations enacted to meet increased pay costs attributable to school-level personnel be distributed under specified allotment provisions.

Revises provisions for uniform direct funding and support of all BIA and contract schools. Sets forth provisions relating to the availability of appropriations for such purpose. Directs the Secretary to publish specified notices of allotments to the affected schools. Directs the Assistant Secretary to establish guidelines for school supervisors' authority to expend (with school board approval) no more than $25,000 annually for supplies and equipment, without competitive bidding.

Authorizes the Secretary to approve applications for funding tribal divisions of education and the development of tribal codes of education from funds appropriated pursuant to self-determination grant provisions of the Indian Self-Determination and Education Assistance Act. (Current law requires the Secretary to institute a program for such funding.)

Removes references to audits of the BIA and the Office of Indian Education from requirements for audits of BIA schools.

Repeals the authority of an officer or employee of the BIA or the Office of Indian Education to accept voluntary services on behalf of BIA and contract schools. Grants the authority to accept voluntary services on behalf of BIA schools to the Secretary, still subject to the approval of the local school board. Declares that an individual providing such volunteer services is a Federal employee only for specified purposes under Federal law.

Redesignates certain provisions of the Act.

Repeals provisions which allow waivers of up to 90 percent of the rental rate for educators to aid schools for Indian children in recruiting and retaining educators.

Revises provisions relating to proration of pay for educators under BIA programs for Indian education. Specifies that laws relating to dual compensation shall not affect such proration of pay. Provides that such educators shall not lose benefits under unemployment or other Federal or federally-assisted programs as a result to their elections with regard to such proration of pay.

Revises provisions relating to extracurricular activities. Authorizes (currently requires) the Secretary to provide, for each BIA area, a stipend in lieu of overtime pay or compensatory time off. Deletes a requirement for area-level determination of the amount of such stipends.

Fair Labor Standards Amendments of 1985 - Amends the Fair Labor Standards Act of 1938 (the Act) to allow State, local, or interstate government employees to receive, in lieu of overtime compensation, compensatory time off at a rate not less than one and one-half hours for each hour of employment for which overtime compensation is required by the Act.

Allows a public agency to provide such compensatory time only pursuant to: (1) applicable provisions of a collective bargaining agreement between the public agency and representatives of such employees; or (2) in the case of employees not covered by a collective bargaining agreement, an agreement or understanding arrived at between the employer and the employee before the performance of the work. Provides that, in the case of employees not covered by a collective bargaining agreement and hired prior to April 15, 1986, the regular practice in effect on such date with respect to compensatory time off in lieu of overtime compensation shall constitute such an agreement or understanding.

Limits the amount of such compensatory time which public employees may accrue after April 15, 1985, to 240 hours or 480 hours in the case of work which included a public safety activity, an emergency response activity, or a seasonal activity. Requires that if compensation is paid to such employee for accrued compensatory time off such compensation be paid at the regular rate earned by the employee at the time of payment. Requires that, upon termination of such employment, the unused compensatory time off be paid for at a rate not less than the higher of: (1) the average regular rate received by such employee during the last three years of employment; or (2) the final regular rate received by such employee.

Requires that public employees who have accrued such compensatory time and requested its use be permitted to use it within a reasonable period after making such request if its use does not unduly disrupt the operations of the public agency.

Provides that a collective bargaining agreement which is in effect on April 15, 1986, and which permits compensatory time off in lieu of overtime compensation shall remain in effect until its expiration date unless otherwise modified, except that compensatory time shall be provided after April 14, 1986, in accordance with this Act.

Provides that States, local governments, and interstate governmental agencies shall not be liable for specified overtime and related paperwork violations under the Act which occur before April 15, 1986, with respect to employees who would not have been covered by the Act under the Secretary of Labor's special enforcement policy in effect on January 1, 1985.

Permits States, local governments, or interstate governmental agencies to defer until August 1, 1986, the payment of monetary overtime compensation under the Act for hours of employment after April 14, 1986.

Adds provisions relating to special detail work for fire protection and law enforcement (including prison security) employees of State, local, or intergovernmental agencies. Provides that those hours on special detail work for a separate or independent employer shall be excluded by the public agency in the calculation of overtime compensation, if the employee agrees, solely at the employee's option, to perform such special detail work and if the public agency: (1) requires that its employees engaged in fire protection, law enforcement, or security activities be hired by a separate and independent employer to perform the special detail; (2) facilitates the employment of such employees by a separate and independent employer; or (3) otherwise affects the conditions of employment of such employees by a separate and independent employer.

Provides that an employee's hours of part-time employment with a public agency in a substantially different capacity from the employee's regular full-time employment with such agency shall be excluded from the calculation of overtime compensation, if such part-time employment is undertaken on an occasional and sporadic basis and solely at the employee's option.

Adds provisions relating to substitution work by and for employees of State, local, and intergovernmental agencies. Provides that those hours of substitution during scheduled work hours for a fellow employee shall be excluded by the public agency in the calculation of the substituting employee's overtime compensation, if such employee agrees to perform such substitute work with the public agency's approval and solely at the employee's option. Provides that the employer may not be required to keep a record of the hours of such substitute work under certain overtime recordkeeping requirements under the Act.

Revises the definition of "employee" under the Act to exclude any individual who volunteers to perform services for a State, local, or interstate governmental agency, if: (1) the individual receives no compensation or is paid expenses, reasonable benefits, or a nominal fee to perform the services for which the individual volunteered; and (2) such services are not the same type of services which the individual is employed to perform for such public agency. Permits State, local, and interstate government agency employees to volunteer to perform services for any other State, local, or interstate governmental agency, including one with which the employing agency has a mutual aid agreement. Directs the Secretary of Labor to issue regulations to carry out such provisions relating to volunteers by March 15, 1986.

Provides that if before April 15, 1986, a public agency's practice was to treat certain persons as volunteers, then such persons shall be considered volunteers and not employees for purposes of the Act until April 15, 1986. Provides that no State, local government, or interstate governmental agency shall be liable for a violation of minimum wage requirements under the Act occurring before April 15, 1986, with respect to services performed for the public agency by any individual who performed such services as a volunteer.

Revises the definition of "employee" to exclude from coverage under the Act State and local legislative employees who are not legislative library employees.

Makes the amendments made by this Act effective on April 15, 1986, but directs the Secretary of Labor to promulgate before such date regulations to implement such amendments.

Prohibits construing such amendments as affecting whether a State, local government, or interstate governmental agency is liable under penalty provisions of the Act for violations of minimum wage, overtime, or paperwork requirements occurring before April 15, 1986, with respect to any employee who would have been covered by the Act under the Secretary of Labor's special enforcement policy in effect on January 1, 1985.

Requires that a State, local government, or interstate governmental agency be held to have violated specified provisions of the Act if it discriminates or has discriminated against an employee with respect to wages or other terms or conditions of employment because on or after February 19, 1985, the employee asserted coverage under overtime provisions of the Act. Requires, after August 1, 1986, an employee to assert coverage under specified nondiscrimination provisions of the Act in order to be entitled to such protection against discrimination.]

Directs the Secretary, in order to ensure continuity in the operation of such a system, to continue to award, by July 1 of each year, such a contract to the SEA receiving the award in the preceding year, unless a majority of the States notify the Secretary in writing that such SEA has substantially failed to perform its responsibilities under the contract during that preceding year. Provides that no activity under such provisions for a migratory children student records system (and for other coordination of migrant education programs) shall, for purposes of any Federal law, be treated as an information collection that is conducted or sponsored by a Federal agency.

Perkins Vocational Education Act (the Act, for purposes of this title) to repeal a provision which excludes specified U.S. territories and possessions from certain "hold-harmless" requirements relating to minimum and maximum allotments.

Revises provisions relating to the portion of funds which a State reserves for administrative costs. Provides that: (1) the formula for determining the amount of such reservation applies to the entire State allotment (rather than to that portion available for statewide activities); and (2) such reserved amount shall be considered as part of that portion of the allotment that is retained for State activities and not distributed under specified provisions.

Revises provisions relating to State councils on vocational education. Specifies that certifications of such councils' establishment and membership are to be made by the States to the Secretary of Education. Requires that such proportion be at least the same as the number of such individuals enrolled by the recipient in the preceding fiscal year bears to the total number of disadvantaged individuals, including such limited-english-proficiency individuals, in that preceding fiscal year.

Revises provisions relating to consumer and homemaking education. Limits the portion of funds for such purpose which may be used for State administration of projects, services, and activities under such provisions.

Revises provisions for the Federal share under the Act. Provides that the formula for determining the Federal share shall be used to determine a maximum limit on such share, rather than the exact required amount of such share. Title VIII: Higher Education Programs - Amends the Student Financial Assistance Technical Amendments of 1982 to direct the Secretary of Education to apportion FY 1986 appropriations for the National Direct Student Loan Program under the Higher Education Act of 1965 so that each State's FY 1986 apportionment bears the same ratio to the total FY 1986 appropriations as that State's FY 1980 apportionment bore to the total FY 1980 appropriations, if the FY 1986 appropriations are less than the FY 1980 appropriations.

Amends the Higher Education Act of 1965 to revise provisions relating to the National graduate Fellows program. Provides that national graduate fellowships shall be awarded for only one academic year of study and shall be renewable for a period not to exceed four years of study. Requires that, in FY 1986 and succeeding fiscal years, all funds appropriated for such program in each fiscal year shall be: (1) awarded to students by March 1 of that fiscal year; and (2) obligated and expended to the students for fellowships for use in the academic year beginning after July 1 of that fiscal year.

Title II: Deficit Reduction Procedures - Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman-Hollings Act) - *Part A: Congressional Budget Process* - Amends the Congressional Budget and Impoundment Control Act of 1974 to prescribe maximum Federal budget deficits for each of fiscal years 1986 through 1991 providing for the incremental reduction of the deficit to zero by FY 1991. Requires Old Age, Survivors and Disability Insurance (OASDI) revenues and expenditures to be included in the calculation of deficits. Requires the receipts, revenues, disbursements, budget authority, and outlays of each off-budget Federal entity for a fiscal year to be included in total budget authority, total budget outlays, and total revenues and the amounts of budget authority and outlays set forth for each major functional category of the budget for such fiscal year. Requires amounts paid by the Federal Financing Bank to purchase loans made or guaranteed by a Government entity to be treated as outlays of such entity.

Amends the Congressional Budget Act of 1974 to revise the timetable with respect to the congressional budget process. Eliminates the second concurrent resolution on the budget.

Requires the Congress to complete action on an annual concurrent resolution on the budget on or before April 15 of each year. Requires such budget resolution to set forth appropriate budgetary levels for each fiscal year beginning on October 1 of such year and planning levels for each of the two ensuing fiscal years. Provides that such resolution may also set forth: (1) reconciliation directives; and (2) the calendar year in which the Congress believes the unemployment goals of the Employment Act of 1946 should be achieved.

Requires that any budget resolution reported by the Committee on the Budget of the House which changes any rule of the House of Representatives be referred to the Committee on Rules. Authorizes the Committee on Rules to report the resolution with an amendment to strike or change the provision affecting the rule.

Requires the committees of the House and Senate having legislative jurisdiction to report their budget views and estimates to the Committee on the Budget of the House or the Senate, respectively, by February 25 of each year.

Requires the report of the Budget Committees accompanying a budget resolution to contain congressional committee allocations of total budget authority, entitlement authority, and credit authority under the resolution.

Requires the joint explanatory statement accompanying a conference report on a budget resolution to set forth the common economic assumptions upon which such statement, report, or any amendment under technical disagreement is based.

Requires the Committee on the Budget of the House to consult with the standing committees of the House during the preparation, consideration, and enforcement of the budget resolution with respect to all matters which relate to the jurisdiction or functions of such committees.

Establishes a point of order against either House of Congress considering any budget resolution, amendment thereto, conference report thereon, or later revision thereof providing for budget outlays exceeding revenues by more than the maximum deficit amount prescribed for the fiscal year. Allows the House of Representative to waive such point of order by a three-fifths vote under certain circumstances.

Requires the joint explanatory statement accompanying a conference report on a budget resolution to include committee allocations of new budget authority. Requires, for the House of Representatives, that each allocation divide new budget authority and resulting budget outlays, entitlement authority, and credit authority between mandatory or uncontrollable amounts and discretionary or controllable amounts.

Establishes a point of order against either House considering any bill, resolution, or amendment thereto which provides new budget, spending, or credit authority for a fiscal year: (1) within the jurisdiction of any committee until such committee makes any required allocations and subdivisions pursuant to the budget resolution for that year; or (2) in excess of the appropriate committee allocation.

Provides that the point of order against either House considering legislation providing new budget authority or increases or decreases in revenues or the public debt for a fiscal year until the concurrent resolution for that fiscal year has been adopted shall: (1) also apply to legislation providing new entitlement or credit authority; and (2) not apply in the House of Representatives after May 15 of a calendar year to any general appropriations bill providing new budget authority for the fiscal year beginning in that calendar year.

Sets forth revised House and Senate procedures for the consideration of budget resolutions.

Requires the House Committee on Appropriations to report all regular appropriations bills for the upcoming fiscal year by June 10.

Requires any House or Senate committee report and each conference report on legislation providing new budget authority (other than continuing appropriations), new spending or credit authority, or an increase or decrease in revenues or tax expenditures for a fiscal year to include: (1) a statement comparing the levels in such measure to the appropriate committee allocations for such year; (2) a statement identifying and justifying the new spending authority; (3) a Congressional Budget Office (CBO) projection of how such legislation will affect the levels of such budget authority, budget outlays, spending authority, revenues, tax expenditures, direct loan obligations, or primary loan guarantee commitments for such fiscal year and the four succeeding years; and (4) CBO's estimate of the level of new budget authority for State and local assistance provided by such legislation.

Requires CBO's tabulations of congressional budget action to report information on all such legislation to all House and Senate committees at least monthly. Directs each Budget Committee to make monthly summary budget scorekeeping reports including such tabulations to the members of its House. Requires CBO's five-year projection report to include information on entitlement authority and credit authority for each fiscal year.

Establishes a point of order in the House of Representatives against considering any resolution providing for an adjournment period of more than three days in July until the House has approved all regular appropriations bills and any required reconciliation legislation for the upcoming fiscal year.

Revises the reconciliation process to require that any reconciliation directives by which budget authority, entitlement authority, credit authority, revenues, or the public debt limit need to be changed to effectuate the provisions of a budget resolution be included in such resolution. Allows specified variance in the composition of changes required for a committee through reconciliation, provided that the total amount of changes recommended is not less that the total amount required. Provides that no amendment that would increase specific budget outlays or reduce specific revenues set forth in a reconciliation bill or resolution shall be in order in either House, unless such amendment provides for offsetting adjustments in other outlays and revenues, with specified exceptions. Requires the Congress to complete action on any reconciliation bill or resolution by June 15 of each year. Makes it out of order for either House to consider any reconciliation bill or resolution containing recommendations concerning the OASDI program.

Establishes a point of order in the Senate against the consideration of any legislation that would provide new budget or entitlement authority or reduce revenues for a fiscal year for which a budget resolution has been completed, if such legislation would result in a deficit exceeding the applicable maximum deficit amount. Allows consideration in the House of Representatives of legislation providing new budget or entitlement authority, if such legislation would not cause committee allocations to be exceeded.

Establishes a point of order against either House considering any legislation which provides new credit authority, unless such new credit authority is to be effective for any fiscal year only to the extent and in such amounts as provided in appropriation Acts.

Requires CBO's cost analyses of reported bills to include descriptions of any methods for establishing Federal financial commitments contained in such bills.

Requires the General Accounting Office to: (1) study provisions of law providing spending authority and permanent appropriations; and (2) report to the Congress recommendations for the appropriate form of financing for activities or programs financed by such provisions.

Requires budget and credit authority and estimates of outlays and receipts for activities of the Federal budget which are off-budget immediately prior to enactment of this provision, excluding activities of the Federal Old-Age and Survivors Insurance and Federal Disability Insurance Trust Funds, to be included in the budget transmitted by the President to the Congress and in the budget resolution.

Directs the Speaker of the House to appoint a Member User Group to review and advise the Speaker on the effect and impact of budgetary scorekeeping rules and practices.

Requires CBO to: (1) submit its annual fiscal policy reports to the Budget Committees by February 15; (2) report to the Congress by January 15 each year a listing of all programs and activities lacking authorizations of appropriations in the current and upcoming fiscal years; and (4) conduct continuing studies to enhance comparisons of budget outlays, credit authority, and tax expenditures.

Requires the President to submit the current services budget to the Congress by the first Monday after January 3 of each year. Requires the Joint Economic Committee to submit its economic evaluation of such budget to the Budget Committees before March 1.

Requires that congressional committees receive prompt notification of all changes in budget functional categories.

Amends the rules of the House of Representatives to: (1) make it the function of the Rules Committee to conduct a continuing study of, and report to the House on, the congressional budget process; (2) require the election of House committees within seven calendar days after a new Congress convenes; and (3) permit consideration of rescissions of appropriations and transfers of unexpended balances within the agency for which they were originally appropriated when such rescissions or transfers are included in a general appropriation bill.

Makes technical and conforming amendments to the Congressional Budget and Impoundment Control Act of 1974 and the rules of the House of Representatives.

Part B: Budget Submitted by the President - Requires submission of the President's budget to the Congress by the first Monday after January 3 of each year. Requires the annual budget submitted by the President to be prepared on the basis of the best estimates available so as to ensure that the deficit set forth for a fiscal year shall not exceed the applicable maximum deficit amount.

Repeals a requirement that the President submit budget changes by April 11 of each year.

Part C: Emergency Powers to Eliminate Deficits in Excess of Maximum Deficit Amount - Requires the Director of the Office of Management and Budget (OMB) and the Director of CBO: (1) by August 15 of each year (January 10, 1986, for FY 1986), to estimate the budget base levels of total revenues and budget outlays for the upcoming fiscal year; (2) to determine whether the projected deficit for such fiscal year will exceed the applicable maximum deficit amount and whether such excess will be greater than $10,000,000,000 (zero in 1986 and 1991); (3) to estimate the rate of real economic growth for such fiscal year, each quarter of such year, and the last two quarters of the preceding fiscal year; and (4) by August 20 of each year (January 15, 1986, for FY 1986), to report such information to the Comptroller General together with the amounts and percentages by which each non-defense program account and each program, project, and activity within each defense account must be reduced in any fiscal year for which the projected deficit exceeds the maximum deficit amount by over $10,000,000,000 (zero in 1986 and 1991) in order to eliminate such excess.

Sets forth procedures for determining such reductions for a fiscal year. Requires that reductions necessary to eliminate one half of the deficit excess for a fiscal year (such excess shall not exceed $11,700,000,000 for FY 1986) be made in outlays under defense program accounts and that reductions necessary to eliminate the other half be made in outlays under non-defense program accounts. Requires automatic spending increases for specified Federal retirement programs to be reduced by a uniform percentage up to 100 percent as necessary to reduce one-half of the deficit excess, also to be divided between defense and non-defense programs. Requires the Directors to determine which accounts are in the defense and non-defense categories.

Requires the Directors' report to the Comptroller General to also specify: (1) the amount and percentage reduction in automatic spending increases by program and the resulting reduction in the deficit excess; (2) the savings to be achieved in the application of each special rule, exception, and limitation to such reduction process prescribed in this Act and the amount of the percentage reduction in Federal payments to States under the Federal-State Extended Unemployment Compensation Act of 1970; and (3) a budgetary breakdown of the reductions for defense and non-defense by account, together with estimates of resulting reductions in outlays.

Sets forth the economic and technical assumptions to be used by the Directors in determining the budget base to be used in making the estimates, determinations, specifications, and reduction calculations under this Act. Requires the Directors to average differences to produce a single, consistent set of data.

Requires the Comptroller General, by August 25 of each year (January 20, 1986, for FY 1986), to submit to the Congress and the President a report based on the OMB-CBO report, providing the same items of information, and explaining any differences in such reports.

Requires the Directors, by October 5 of each fiscal year, to submit to the Comptroller General a revised report identifying: (1) any change in the deficit excess for such year as a result of laws enacted and regulations promulgated after the submission of their initial report; and (2) any necessary adjustments in the estimates, determinations, specifications, and reductions contained in the initial report. Requires the Comptroller General, by October 10, to submit a revised version of his report as necessary in light of the revised OMB-CBO report.

Sets forth defense program sequestration procedures providing for: (1) the determination of a uniform reduction percentage; (2) the sequestration of new budget authority and unobligated balances; and (3) sequestration from national defense accounts through the termination or modification of existing contracts.

Directs the President, on September 1 (February 1, 1986, for FY 1986) preceding each fiscal year for which the Comptroller General's report identifies a deficit excess over $10,000,000,000 (zero for FY 1986 and 1991), to issue an initital order eliminating such deficit excess in accordance with such report by modifying or suspending the operation of each provision of Federal law requiring an automatic spending increase and by sequestering new budget authority, unobligated balances, new loan guarantee commitments, new direct loan obligations, and spending authority. Requires such order to provide for reductions as specified in the report (except as provided for defense programs for FY 1986). Requires that any amounts sequestered and any portions of automatic spending increases reduced by such order be withheld or suspended, respectively, pending issuance of the President's final order and permanently cancelled in accordance with such final order when issued. Requires the President's initial order to take effect on October 1 of each fiscal year (March 1, 1986, for FY 1986).

Sets forth special rules for FY 1986, including special sequestration procedures for national defense. Allows the President to differentiate reduction percentages among programs, projects, and activities within accounts and to exempt from reductions any military personnel account, provided that the total amount required to be sequestered for national defense is achieved. Prohibits the President's order for FY 1986 from resulting in a military base closure or realignment.

Requires the President to issue a final order on October 15 of each year (the initial order shall be the final order for FY 1986) providing for any adjustments required pursuant to the Comptroller General's revised report.

Prohibits the elimination of any Federal program, project, or activity or the denial of benefits to any eligible person as a result of such a presidential order.

Directs the Comptroller General to report to the Congress and the President by November 15 of each year (April 1, 1986, for FY 1986) on the extent to which the President's final order complies with requirements of this Act.

Requires the CBO director to notify the Congress at any time if: (1) CBO or OMB has determined that real economic growth is projected or estimated to be less than zero for each of two consecutive quarters out of the past two and upcoming four quarters; or (2) the Department of Commerce preliminary reports of actual real economic growth indicate that the rate of real economic growth for each of the most recent reported quarter and the immediately preceding quarter is less than one percent. Requires the Majority Leader of each House, upon receiving such notification, to introduce a joint resolution suspending provisions of this title for the remainder of the current fiscal year or for the following fiscal year or both. Sets forth House and Senate procedure for consideration of such resolution.

Authorizes each standing committee of the Senate, within two days after submission of the Comptroller General's revised report under this title, to submit to the Senate Budget Committee alternatives to the order envisioned by such report as such order would affect laws within such standing committee's jurisdiction. Permits the Senate Budget Committee, within two days after issuance of a final order by the President under this title, to report a resolution affirming all or parts of such order and containing reconciliation instructions to certain committees sufficient to achieve at least the total level of deficit reduction contained in those parts not affirmed. Directs such committees, within ten days, to submit their responses to the Senate Budget Committee, which shall report a reconciliation bill or resolution carrying out such committees' recommendations. Establishes a point of order against Senate consideration of any such reconciliation legislation which, if enacted, would result in a deficit for a fiscal year exceeding the applicable maximum deficit amount.

Lists programs and activities which are exempt from any reduction measures under this Act, including: (1) OASDI benefits and certain railroad retirement benefits; (2) veterans' compensation and pensions; (3) interest on the national debt; (4) earned income tax credit payments; (5) offsetting receipts and collections; (6) payments to Federal retirement funds and certain Federal trust funds; (7) specified Federal insurance trusts; and (8) the child nutrition, aid to families with dependent children, food stamp, Medicaid, Supplement Security Income, and women, infants, and children programs.

Sets forth special rules for applying reductions required under this Act to the: (1) guaranteed student loan, child support enforcement, foster care and adoption assistance, and unemployment compensation programs; (2) the Commodity Credit Corporation; and (3) obligated balances. Limits maximum permissible reductions to one percent in FY 1986 and two percent in subsequent fiscal years for Medicare, community health centers, migrant health centers, Indian health facilities, Indian health services, and veterans' medical care. Prohibits a sequestration order under this Act from reducing a Federal employee's rate of pay under a statutory pay system or any element of military pay. Provides for the treatment of mine worker disability increases as automatic spending increases.

Terminates the provisions at this part on September 30, 1991.

Part D: Budgetary Treatment of Social Security Trust Funds - Provides that the receipts and disbursements of the Federal Old Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund (OASDI trust funds) and the taxes imposed on employers, employees, and the self-employed shall not be included in the totals of the Federal budget as submitted by the President or as stated in the congressional budget, and shall be exempt from any general budget limitation imposed by statute on Federal expenditures and net lending, for fiscal years 1986 through 1992. Prohibits payments between the Treasury and such funds, other than an appropriation to such funds already authorized under the Social Security Act as in effect on the date of enactment of this Act.

Part E: Miscellaneous and Related Provisions - Requires a three-fifths vote in the Senate to waive specified provisions and points of order under the Congressional Budget Act of 1974.

Directs the Secretary of the Treasury to issue to the OASDI trust funds, the Federal Hospital Insurance Trust Fund, the Federal Supplementary Medical Insurance Trust Fund, the Railroad

Retirement Account, the Civil Service Retirement and Disability Func, and other specified funds public debt obligations identical to the obligations which: (1) were redeemed between September 1, 1985, and September 29, 1985; and (2) would not have been redeemed had the public debt limit been increased on August 1, 1985. Directs the Secretary to pay to such funds the interest not earned because of redemptions, noninvestments, or disinvestments during such period that would not have occurred had the public debt ceiling been increased on August 1, 1985.

Requires the Secretary to: (1) issue to the Department of Defense Military Retirement Fund obligations that would have been issued to such Fund on October 1, 1985, had the public debt ceiling been increased on August 1, 1985; (2) pay to such Fund the amount of interest not earned because such obligations were not issued; and (3) immediately invest such interest payment in special obligations designated by the Secretary of Defense.

Requires the Secretary of the Treasury to pay to each fund listed in Table III of the Monthly Statement of the Public Debt of November 30, 1985, the amount of interest such fund was unable to earn from investments between December 7, 1985, and the date of enactment of this Act because of the expiration of the temporary debt limit.

Directs the Secretary to pay to the OASDI trust funds an amount (not to exceed $550,000,000) sufficient to fully compensate such funds for interest losses arising from the premature redemption, between September 1, 1984, and October 31, 1984, of securities maturing in calendar years 1987 through 1991.

Requires CBO to use revenue estimates provided by the Joint Committee on Taxation for purposes of revenue legislation.

Authorizes any Member of Congress or any person adversely affected by any action under this title to bring a lawsuit concerning the constitutionality of this title. Provides that such an action shall be subject to expedited consideration and shall be reviewable by appeal directly to the U.S. Supreme Court from a three-judge panel of the U.S. District Court for the District of Columbia. Prohibits any court order granting declaratory of injunctive relief from the President's sequestration order from taking effect pending final disposition of any such appeal. Provides that if reductions pursuant to a sequestration order of the President under this title are prevented or avoided on constitutional grounds as determined by the Supreme Court, the entire order shall be null and void.

Provides for the establishment of a Temporary Joint Committee on Deficit Reduction to which the OMB-CBO report shall be submitted if the reporting procedures set forth earlier in this title are invalidated. Directs the Committee to report to both Houses a joint resolution setting forth the contents of the OMB-CBO report. Requires such joint resolution, if enacted, to be considered to be the Comptroller General's report received by the President.

Waives specified provisions of this title if a declaration of war by the Congress is in effect.

Revises the definition of "humanities" to include: (1) interpretation, as well as study, of various disciplines; and (2) particular attention to reflecting the Nation's diverse heritage, traditions, and history.

Requires State agencies to summarize such recommendations and their response. Requires such applications to include descriptions of: (1) the level of participation during the previous two years by artists, artists' organizations, and arts organizations in projects and productions receiving such assistance; (2) the extent to which such projects and productions are available to all people and communities in the State; and (3) existing or developing projects and productions to secure wider participation and greater availability. Farm Credit Amendments Act of 1985 - *Title I: Provisions to Strengthen the Operation of Farm Credit System Lending Institutions* - Amends Part A of title IV of the Farm Credit Act of 1971 to merge specified revolving funds and make such funds available to the Farm Credit Administration (FCA) for the purchase on behalf of the United States of stock in the Farm Credit System Capital Corporation (established by this Act).

Replaces existing debt-to-capital provisions with authority to maintain adequate capital in Farm Credit System (FCS) institutions.

Empowers the FCA to appoint a receiver or conservator for an FCS institution in situations of: (1) insolvency; (2) substantial asset dissipation; (3) unsound conditions; (4) willful violation of a final cease and desist order; or (5) concealment of records.

Provides for the charter of a new Farm Credit System Capital Corporation (Corporation) within 60 days. Makes such Corporation a federally chartered instrumentality of the United States and an FCS institution. States that such Corporation shall be reviewed on December 31, 1987, at which time the FCA shall submit a report to the Congress together with any recommendations to extend such Corporation's charter. Directs the Corporation to provide financial and technical assistance to financially-troubled FCS institutions.

Sets forth related operating and administrative provisions.

Authorizes the Secretary of the Treasury, upon FCA certification of need, to purchase Corporation obligations in order to assist FCS institutions.

Provides initial capitalization through institution contributions.

Authorizes the FCA, effective January 1, 1991, to establish a central FCS reserve to be held in the form of Treasury securities and demand deposits. Authorizes the use of such reserve to make temporary deposits and investments in financially-troubled FCS institutions.

Capitalizes such reserve through FCS institution contributions based on the proceeds of notes, bonds, or debentures. Provides that the tax status of consolidated obligations will not change because the issuance of such is joined in by the Corporation.

Title II: Regulation of Farm Credit System - Amends Part B of title V of the Farm Credit Act to state that the FCA shall be an independent executive agency. Vests management in a Farm Credit Administration Board. Sets forth related operating and administrative provisions, including authority to establish advisory committees.

Requires: (1) at least annual examinations of FCS institutions; and (2) each institution to make an annual audit report. Authorizes the FCA to publish reports of such examinations under specified circumstances.

Authorizes the FCA to: (1) initiate cease-and-desist and temporary cease-and-desist proceedings against FCS institutions or persons; and (2) initiate proceedings to remove an individual from office or suspend an officer or director in an FCS institution. Sets forth hearing, judicial review, and penalty provisions.

Title III: Protection for Farmers and Other Farm Credit System Borrowers - Amends the Farm Credit Act of 1971 to set forth loan disclosure (interest rates, variable loan rates, stock purchases) and access to information provisions (borrower document copies).

Provides for a credit review committee.

Requires, in cases of voluntary or involuntary association liquidation, that the supervising bank minimize the adverse effects on borrowers whose loans are purchased by other FCS institutions.

Prohibits an FCS institution from: (1) separately selling surface (mineral) rights on land acquired by foreclosure; or (2) selling certain land previously securing a loan for less than can be received from the Corporation.

Title IV: Implementation Procedures - Makes titles I through III of this Act effective 30 days after their enactment.

States that the Governor of the FCA shall perform the functions of the Chairman of the Farm Credit Administration Board until his appointment.

Expresses the sense of the Congress that the needs of the U.S. agriculture industry require implementation of this Act as soon as possible.

Title V: National Commission on Agricultural Finance - Directs the President to appoint a National Commission on Agricultural Finance to: (1) conduct a study of methods to ensure adequate agricultural credit; and (2) report to the Congress within one year.

Title VI: Miscellaneous Amendments - Amends the Farm Credit Act of 1971 to require Federal land banks and associations to carry a reserve account.

Panama Canal Amendments Act of 1985 - Amends the Panama Canal Act of 1979 to require the Panama Canal Commission to pay for damages to vessels which arise because of passage through the Panama Canal when the injury was proximately caused by negligence or fault on the part of a U.S. officer or employee acting within the scope of employment and in the line of duties in connection with the operation of the Canal. Deletes the provision which prohibits payment when the injury was proximately caused by the negligence or fault of the vessel, master, crew, or passengers. Prohibits payment of damages for claims of injuries in the locks of the Canal unless the claim is filed with the Panama Canal Commission within two years after the injury or within one year after enactment of this Act, whichever is later.

Authorizes the Commission to pay a claim for damages for injuries to a vessel or its cargo that occurred while the vessel was not under the control of a Panama Canal pilot if the amount of the claim is less than $50,000, unless the injuries were caused by another vessel under the control of a Panama Canal pilot.

Prohibits the Commission from being responsible for or from considering any claim for demurrage or delays caused by investigation of a marine accident that is conducted within 24 hours after the accident occurs, except that any liability of the Commission beyond that 24-hour period shall be limited to the extent the accident was caused, or contributed to, by the negligence of a Commission employee acting within the scope of the employee's duties.

Deletes the provision which requires the Commission to submit to the Congress claims which exceed $120,000. Authorizes the Commission to settle such claims. Permits claims for injuries to be paid only out of money appropriated or allotted for the maintenance and operation of the Panama Canal.

Authorizes claimants for injuries that occurred outside the locks of the Canal to bring an action against the Commission in the U.S. District Court for the Eastern District of Louisiana if the decision of the Commission does not satisfy the claimant. Authorizes payment of any judgment only out of money appropriated or allotted for the maintenance and operation of the Panama Canal. Requires that such action must be brought within one year after the Commission mails to the claimant written notification of the Commission's decision or within one year of enactment of this Act whichever is later.

Requires each compact to provide that the Congress may by law withdraw its consent every five years.

Sets a seven-year transition period (January 1, 1986, to December 31, 1992) during which State or regional disposal facilities shall: (1) make disposal capacity available for low-level radioactive waste generated by commercial nuclear power reactors; and (2) not restrict the availability of such capacity for wastes generated by specified sources (thus allowing non-sited generators to continue disposing of low-level waste at existing disposal facilities through December 31, 1992). Sets allocation guidelines for disposal capacity which limit the amount of total annual volume of low-level radioactive waste which such facilities must take through 1992. Allows such facilities to exclude out-of-region waste after 1992. Limits the availability of disposal capacity during the seven year transition period provided by the sites located in: Barnwell, South Carolina; Richland, Washington; and Beatty, Nevada. Prescribes guidelines for the allocation of disposal capacity among specified commercial nuclear power reactors during a specified four-year transition period and three-year licensing period.

Authorizes eligible commercial nuclear power reactors to assign their disposal capacity allocations to other eligible commercial nuclear power reactors.

Provides additional disposal capacity allocations for unusual volumes of low-level radioactive waste caused by specified circumstances.

Sets guidelines under which States may impose a surcharge upon a generator of low-level radioactive waste within their borders. Provides for the repayment of certain percentages of surcharges as a milestone incentive through the establishment of an escrow account.

Sets milestones by which specified activities for the establishment of operating disposal facilities must be implemented by each non-sited compact region or non-sited State that is not a member of a compact. Sets penalties for non-compliance by imposing an escalating surcharge for access to a disposal facility, or by denying access to such facility. Provides for the restoration of suspended access upon compliance with the implementation requirements.

Provides that States or compact regions which do not have an operating disposal facility by a certain deadline must take title to and possession of the low-level radioactive waste, and shall be liable to the generator or owner of such waste for all damages incurred as a consequence of failure to take possession.

Requires all non-sited States or compact regions to develop siting plans and facility licensing applications according to specified deadlines. Penalizes failure to meet such deadlines with: (1) possible denial of access to regional disposal facilities; and (2) a schedule of escalating surcharges.

Authorizes the States of South Carolina, Washington, and Nevada to deny disposal capacity access to any generator or intermediate handler who fails to provide authorized information necessary to monitor disposal capacity availability, allocations, and surcharges.

Sets forth conditions under which the Nuclear Regulatory Commission may grant emergency disposal facility access to a noncomplying State if an imminent threat exists to the public safety or common defense. Authorizes the commission to grant one emergency access extension upon determining that an imminent public safety danger continues in spite of diligent efforts to eliminate it.

Prescribes guidelines under which any compact region or nonmember compact State shall be entitled to reciprocal emergency access to disposal facilities.

Requires the Secretary of Energy to: (1) furnish technical and financial assistance to compact regions and to States seeking assistance under this Act; and (2) submit an annual report to the Congress summarizing the status and requirements of low-level radioactive waste disposal activity.

Directs the Commission within a specified time period to: (1) publish the technical information and guidance needed by States and compact regions to establish low-level radioactive waste disposal facilities that use alternatives to shallow land burial and that meet the Commission's licensing requirements; (2) expedite the licensing review procedure for new low-level radioactive waste disposal facilities; (3) develop standards, procedures, and expertise to exempt from Commission regulation waste streams whose radioactive waste is below regulatory concern.

Title II: Omnibus Low-Level Radioactive Waste Interstate Compact Consent Act - Conditions congressional consent to the interstate compacts on low-level radioactive waste management (enumerated below) upon: (1) the compliance of such compacts with the Low-Level Radioactive Waste Policy Act, as amended; (2) the compliance of the regional body established in the compact with the provisions of such Act.

Retains congressional power to alter or repeal the conditions of consent after the expiration of the ten-year period following the date of enactment of this Act.

Grants such congressional consent to the following compacts: (1) the Northwest Interstate Compact on Low-Level Radioactive Waste Management, which provides for cooperation among the States of Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington; (2) the Central Interstate Low-Level Radioactive Waste Compact, which provides for cooperation among the States of Arkansas, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, and Oklahoma; (3) the Southeast Interstate Compact on Low-Level Radioactive Waste Management, which provides for cooperation among the States of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia; (4) the Central Midwest Interstate Compact on Low-Level Radioactive Waste Management, which provides for cooperation between the States of Kentucky and Illinois; (5) the Midwest Interstate Low-Level Radioactive Waste Compact, which provides for cooperation among the States of Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, and Wisconsin; (6) the Rocky Mountain Low-Level Radioactive Waste Compact, which provides for cooperation among the States of Arizona, Colorado, Nevada, New Mexico, Utah, and Wyoming; and (7) the Northeast Interstate Low-Level Radioactive Waste Compact, which provides for cooperation between the States of Connecticut, New Jersey, Delaware, and Maryland.

Federal Employees Benefits Improvement Act of 1986 - *Title I: Federal Employees Health Benefits* - Changes from "employees" to "enrollees" those persons eligible for rebates from amounts held in contingency reserves under the Federal Employees Health Benefits Fund.

Eliminates the requirement of three medical specialties for group-practice prepayment plans.

Authorizes the Office of Personnel Management (OPM) to waive certain health benefit plan election coverage requirements for individuals who fail to satisfy such requirements due to exceptional circumstances.

Directs OPM to provide a three week period during which enrollees in health benefits plans may change or cancel their enrollments before any contract term in which the rates or benefits of a plan will change, a new plan will be offered, or an existing plan will be terminated. Authorizes an enrollee to transfer such enrollment at other times and under other conditions as prescribed by OPM.

Amends current law relating to the Federal Employee Health Benefit Plan to establish contracting authority for clinical social workers.

Authorizes Federal health plans to require a referral by a psychiatrist as a condition for reimbursement of clinical social workers. Prohibits such plans from requiring that services be performed under the supervision of a psychiatrist or other health practitioner.

Reinstates contracting authority under the plan for health services for medically underserved populations.

Expresses the sense of the Congress that: (1) Federal health plan participants should receive adequate insurance coverage for treatment of mental illness, alcoholism, and drug addiction; and (2) OPM should encourage participating plans to provide adequate benefits relating to such illnesses.

Directs OPM to study and report to the House Committee on Post Office and Civil Service and the Senate Committee on Governmental Affairs before April 1, 1986, on extending contracting authority under the Federal Health Benefit Plan to health practitioners not currently covered (such as nurse-midwives, nurse practitioners, chiropractors, and clinical social workers).

Directs OPM to report, by June 1, 1986, to the House Committee on Post Office and Civil Service and the Senate Committee on Governmental Affairs on the adequacy of current sources in assisting individuals in making an informed choice for a health plan.

Requires the Director of OPM, in consultation with the Secretary of Health and Human Services, to conduct at least one demonstration project to determine the most effective (including cost-effective) means of: (1) furnishing health protection, health promotion, disease prevention, and secondary prevention services to Federal employees; (2) encouraging employees to adopt good health habits; (3) reducing health risks and medical expenses; (4) enhancing employee productivity and reducing Federal health-related liability through an occupational health program; and (5) training employees to provide certain health services and utilizing such employees through interagency agreements. Requires such project to determine the cost effectiveness of organizational structures and of social and educational programs which may be useful to achieve the objectives of such project. Sets forth administrative requirements for such project and requires a report to the Congress 60 days after its termination.

Authorizes OPM to approve mixed model prepayment plans, which are combinations of group-practice and individual-practice health plans.

Requires that amounts refunded during FY 1986 and 1987 to the Employees Health Benefits Fund be used solely to pay the Government contribution for annuitants enrolled in health benefits plans.

Title II: Civil Service Spouse and Former Spouse Equity Improvements - Amends the Civil Service Retirement Spouse Equity Act of 1984 to make technical and clarifying changes with respect to the applicability of survivor benefits. Directs OPM to prescribe regulations under which an employee or Member may designate a portion of such employee's annuity to be used as the base for the survivor annuity for a former spouse.

Makes technical and clarifying amendments regarding annuities for former spouses.

Title III: Miscellaneous Civil Service Amendments - Authorizes OPM to incur reception and representation expenses subject to limitations prescribed by law.

Exempts from notice requirements certain routine pay matters.

Includes in pre-departure allowances for employees in a foreign area the costs incurred in U.S. territories or possessions, the Commonwealth of Puerto Rico, or areas available to the United States in the Republic of Panama.

Authorizes routine dental care at Naval hospitals and dispensaries to Federal employees and their dependents, and Federal contractors and their dependents, outside the continental limits of the United States under specified circumstances.

Repeals provisions relating to a minimum annuity under the Civil Service Retirement System. Declares that certain retirees who have received erroneous overpayments before enactment of this Act shall be deemed entitled to such overpayments. Provides for a lump-sum payment to certain retirees as an adjustment for certain reductions.

Extends Government benefits regarding rates of pay on changes of position, annual leave, and reductions-in-force to former employees of county committees established under the soil conservation program. (Currently, such benefits are extended only to the former committee employees who are also employees of the Department of Agriculture.)

Grants Federal retirees an 18-month period after their retirement date to elect a survivor annuity for their spouses or to increase such annuity. Declares such election ineffective unless the necessary amount to cover such election is deposited in the Civil Service Retirement and Disability Fund prior to the expiration of the 18-month period.

Declares that a survivor annuity election made under the provisions of this Act voids any such previous election.

Directs OPM to annually inform each employee and Member of his or her right of election, including applicable procedures and deadlines.

Requires specified warning labels on all smokeless tobacco products and advertisements. Directs the Federal Trade Commission (FTC) to promulgate regulations to implement this Act within 180 days. Provides for confidentiality of such information. Declares that the failure to comply with provisions of this Act shall be a misdemeanor. Grants district courts of the United States jurisdiction and injunctive power to prevent and restrain violations of this Act.

Food Security Improvements Act of 1986 - Amends the Agricultural Act of 1949 to authorize the Secretary of Agriculture to permit specified nonprogram crops to be planted on underplanted acreage (under an acreage limitation program) for the 1986 through 1990 crops of wheat, feed grains, rice, and upland cotton only if such production: (1) is not likely to increase price support program costs and will not adversely affect existing producers of such nonprogram crops; and (2) is necessary to provide an adequate supply of the commodity, or to encourage domestic industrial use of a commodity not year in use.

Permits, at State option, hay and grazing on such acreage if the Secretary determines they would not have an adverse economic effect.

Amends farm program yield provisions to provide that: (1) for the 1986 crop year, additional price support payments in the form of commodities shall be made available if farm payment yields are reduced by more than three percent of 1985 levels; (2) for the 1987 crop year, similar payments shall be made available if farm payment yields are reduced by more than five percent of 1985 levels; and (3) in establishing farm payment yields for 1988 and subsequent crop years, 1986 payment yields may not be reduced more than ten percent below 1985 levels.

Amends the Food Security Act of 1985 to change the title of the Special Assistant for Agricultural Trade and Food Aid to the Special Assistant for Agricultural Trade and Food Assistance. Requires the President to make such appointment by May 1, 1986. Sets minimum salary levels.

Sets forth the conditions for permitted hay and grazing on diverted wheat and feed grain acreage.

Includes within the factors making up a program crop's acreage base a specified percentage of nonprogram crop acreage (50 percent for 1986 and 1987; 35 percent for 1988; 20 percent for 1989; and zero percent for 1990).

Directs the Secretary to hold hearings and implement a marketwide milk service payment program within a specified time.

Directs the Secretary to increase milk assessments, rather than reduce milk payments, in order to meet deficit reduction requirements of the Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman-Hollings Act) during the period March 1, 1986, through September 30, 1986. Stipulates that such increases may not exceed 12 cents per hundredweight.

White Earth Reservation Land Settlement Act of 1985 - Provides procedures for: (1) resolving claims and clearing titles (by statutory ratification) to certain lands on the White Earth Indian Reservation, Minnesota; and (2) compensating for loss of allotments resulting from such ratification.

States which categories of allotments are and are not eligible for compensation under this Act.

Requires the Secretary of the Interior to: (1) determine, and publish a list of, all applicable allotments (allowing, within a specified time, for the submission, determination, and publication of additional applicable allotments); (2) make determinations of heirships to lands subject to applicable allotments; (3) locate and notify allottees or heirs; (4) establish the fair market value of the various types of land subject to applicable allotments for various years, which shall govern the compensation payable under this Act; and (5) distribute such compensation. Provides a formula for fixing such compensation.

Allows judicial review of the Secretary's compensation determinations up to a specified period (after which such determinations shall be conclusive). Gives exclusive jurisdiction over such actions to the U.S. District Court for the District of Minnesota.

Makes this Act conditional on: (1) Minnesota entering into an agreement to transfer 10,000 acres to the United States in trust for the White Earth Band of Chippewa Indians and appropriating $500,000 for assisting the United States with the administration of this Act; and (2) congressional authorization of specified amounts for the economic development of the White Earth Band of Chippewas.

Requires the Secretary to publish in the Federal Register notice that such conditions have been met. Provides, after such publication, for: (1) the ratification of certain allotments and the extinguishment of claims against the United States and Minnesota arising out of transactions involving those allotments; and (2) the prohibition of certain court actions to recover damages or titles to lands covered by those allotments.

Prohibits immediately upon enactment of this Act, and if such publication takes place, any action on behalf of the White Earth Band of Chippewa Indians.

Permits individual actions to be filed only within a specified time after such publication. Prohibits an individual from receiving compensation under this Act after such an action is filed.

States the intention that: (1) no title to lands on the White Earth Reservation shall be rendered unmarketable solely because of the Secretary's determinations under this Act; and (2) that no individual be compensated twice for the same interest in an allotment.

Establishes the White Earth Economic Development and Tribal Government Fund for the collective benefit of the White Earth Band of Chippewa Indians (subject to a Band Financial Ordinance and Investment Plan and a waiver of U.S. liability for any loss as a result of the use of such funds). Requires forfeiture into such Fund of any compensation due for which allottees cannot be located. Authorizes appropriations.

Requires the Secretary to: (1) complete all of the administrative work necessary to accomplish the objectives of this Act within five years; and (2) make various reports to the Congress.

Exempts funds or income distributed under this Act from Federal and State income taxes or eligibility determinations with respect to assistance under the Social Security Act or other Federal programs.

Consolidated Omnibus Budget Reconciliation Act of 1985 - *Title I: Agricultural Programs - Subtitle A: Agricultural Program Savings* - Declares that, for purposes of determining savings under this Act, the expenditures and outlays resulting from title XI (export sales of dairy products) and title XIII (emergency disaster loans and loan authorizations under the Agricultural Credit Insurance Fund) of the Food Security Act of 1985 (H.R. 2100) shall be counted as having been enacted under this Act.

Subtitle B: Tobacco Program Improvements - Amends the Agricultural Act of 1949 to set the price supports for the 1985 and 1986 crops of: (1) Flue-cured tobacco at $1.438 per pound; and (2) Burley tobacco at $1.488 per pound.

Sets the price support level for any kind of tobacco (other than Flue-cured and Burley) for which marketing quotas are in effect or not disapproved by producers at the preceding year's price, plus or minus the amount by which the current crop's price is greater or less than the preceding year's price, as such difference may be adjusted by the Secretary of Agriculture. Authorizes the Secretary to reduce the support level if requested by a producer association.

Sets the price support level for the 1987 and subsequent crops of Flue-cured and Burley tobacco at the preceding year's level, plus or minus an adjustment of 65 percent to 100 percent of the total of: (1) two-thirds of the amount by which the previous five years' average marketing price is greater or less than the preceding year's average price; and (2) one-third of the change in the index of prices paid by tobacco farmers during the previous calendar year. Sets forth reduction adjustments for the average prices of the 1984 and 1985 marketing years.

Repeals the provision authorizing the Secretary to reduce price supports for certain low quality grades of Flue-cured tobacco.

Amends the Agricultural Adjustment Act of 1938 to establish reserve tobacco stock levels for: (1) Flue-cured at the greater of 100,000,000 pounds or 15 percent of such tobacco's national marketing quota; and (2) Burley at the greater of 50,000,000 pounds or 15 percent of such tobacco's national marketing quota.

Requires the Secretary to set the national marketing quota for Flue-cured and Burley at between 103 percent and 97 percent of the total of: (1) the aggregate of projected cigarette purchases; (2) the previous three years' average annual exports; and (3) the amount of tobacco the Secretary determines necessary to increase or decrease producer association inventories to maintain such inventories at reserve stock levels.

Requires the national marketing quota for both Flue-cured and Burley tobacco to be at least: (1) 94 percent of the preceding year's quota for the 1986 through 1989 marketing years; and (2) 90 percent for the 1990 through 1993 marketing years.

Limits downward adjustments in the national Burley marketing quota to the greater of: (1) 35,000,000 pounds; or (2) 50 percent of the amount by which total Burley inventories of a producer association exceed reserve stock levels.

Requires cigarette manufacturers to submit to the Secretary an annual confidential projection of the amount of Flue-cured and Burley tobacco they intend to buy at auction or from producers during the succeeding marketing year. Directs the Secretary to establish the projection if a manufacturer fails to provide such information. Subjects Department of Agriculture officers or employees to loss of office and fines or imprisonment for violations of such confidentiality provisions.

Reduces the amount of Flue-cured and Burley tobacco that may be marketed without penalty from 110 percent to 103 percent of the farm marketing quota.

Establishes the annual marketing quota announcement date for: (1) Burley tobacco as February 1; and (2) other tobacco as March 1.

Requires cigarette manufacturers to submit to the Secretary on a confidential basis at the end of each marketing year the amount of Flue-cured and Burley tobacco purchases during such year.

Subjects manufacturers to a penalty (twice the per pound assessment times the amount by which purchases are less than 90 percent of projected purchases) for failure to purchase at least 90 percent of their Burley and Flue-cured projected purchases. Requires penalties to be transmitted to the appropriate associations for deposit in the No Net Cost Fund or Account.

Requires Flue-cured and Burley tobacco purchasers to pay to the appropriate associations assessments on all purchases of such tobacco marketed by a producer from a farm. States that such assessments shall be determined so that producers and purchasers share equally in maintaining association Funds.

Requires assessments to be collected from: (1) the person acquiring the tobacco; (2) the warehouseman or agent if the tobacco is marketed through such person; or (3) the producer on sales (by the producer) to a person outside the United States. Subjects persons who fail to collect and remit such assessment to a penalty. Provides for: (1) notice and hearing opportunity; and (2) U.S. district court review.

Provides that for the 1986 and subsequent Burley crops assessments shall be determined without regard to any losses the Commodity Credit Corporation (CCC) may sustain with respect to the 1983 Burley Crop.

Provides with regard to inventory purchases that: (1) 1976 through 1984 Flue-cured stocks shall be offered for sale at the base prices (including carrying charges) in effect on the offer date, reduced by 90 percent for 1976 through 1981 tobacco, and ten percent for 1982 through 1984 tobacco; and (2) 1982 Burley stocks shall be offered for sale at the July 1, 1985, price and 1984 stocks shall be offered for sale at the associations' costs as of the date of enactment of this Act.

Extends until November 1, 1993, the exemption from certain fire safety requirements for vessels which were in operation before January 1, 1968, and operate only on the inland rivers of the United States. Requires the owner or operator of any exempted vessel to notify prospective passengers of its noncompliance with such fire safety requirements, and prohibits the owner or operator from waiving liability for any loss due to fire caused by the owner's or operator's negligence.

Gives the master of a documented vessel the same lien for wages and the same priority as any other seaman serving on the vessel.

Authorizes the Coast Guard to acquire a site on the State pier in New Bedford, Massachusetts, for specified construction. Authorizes the Coast Guard, beginning in FY 1986, to use appropriated funds for construction on such State pier.

Declares Lawyer's Ditch in Newark, New Jersey, to be a nonnavigable waterway.

Authorizes the Coast Guard to contract with a municipal utility to provide electricity to a Coast Guard facility within a specified Coast Guard district in Alaska.

Declares a certain section of Bayou Lafourche, Thibodaux, Louisiana, to be a nonnavigable waterway.

Authorizes the Secretary of the department in which the Coast Guard is operating, notwithstanding certain registry requirements, to issue certificates of documentation to the vessels Marilyn, Royal Star, Alaskan Shores, Shearwater, Gypsy Rose, Eliminator, Puka Kai, Lobster House, Jane E., and Diane M. Limits the operation of the two last named vessels to the Atlantic Ocean and the Gulf of Mexico.

Firearms Owners' Protection Act - Amends the Gun Control Act of 1968 to redefine "gun dealer," excluding those making occasional sales or repairs. Exempts certain activities involving ammunition from current prohibitions.

Permits the interstate sale of rifles and shotguns, provided: (1) the transferee and transferor meet in person to accomplish the transfer; and (2) such sale complies with the laws of both States. Presumes the licensee to have actual knowledge of the laws of both States.

Repeals certain recordkeeping requirements for the sale of ammunition (but retaining such requirements for armor-piercing ammunition).

Revises the current prohibition against the sale of firearms or ammunition to certain categories of individuals by: (1) prohibiting such sales by all persons (current law covers only licensees); and (2) including as additional categories illegal aliens, dishonorably discharged members of the armed forces, and U.S. citizens who renounce their citizenship. Extends the prohibition against shipping firearms or ammunition in interstate or foreign commerce to include such individuals.

Makes it unlawful, with certain exceptions, for any individual to transfer or possess a machinegun.

Excludes pawnbrokers dealing in ammunition from current licensing requirements. Declares that a licensed dealer's personal collection of firearms shall not be subject to recordkeeping requirements in specified circumstances.

Permits the Secretary of the Treasury to revoke a license only where the holder "willfully" violates a provision of this Act. Bars the Secretary from denying or revoking a license based on violations which are alleged in criminal proceedings in which the licensee has been acquitted. Allows the Government to voluntarily dismiss such charges before trial and still proceed with revocation.

Requires the Secretary to obtain a warrant, based on reasonable cause, to examine a licensed importer's, dealer's, or manufacturer's records, firearms, or ammunition. Provides certain exceptions from the warrant requirement, including a permissible annual inspection to ensure compliance with the recordkeeping requirements.

Requires licensed collectors to maintain records of the receipt, sale, or other disposition of firearms.

Requires all licensees to report all multiple firearms sales.

Requires records maintained by a licensee who has discontinued business to be delivered to the Secretary.

Allows the Secretary to require additional recordkeeping and reports when necessary.

Permits licensed importers, manufacturers, and dealers to conduct business at temporary locations other than the one specified on a license (for example, gun shows).

Establishes either a "knowing" (scienter) or "willful" requirement with respect to general violations of this Act. Makes it a misdemeanor for any licensee to knowingly violate the recordkeeping requirements of this Act.

Imposes additional penalties, under certain circumstances, for: (1) the use of a firearm during certain drug trafficking crimes; (2) the use of a machinegun during the commission of a crime; and (3) the use of a firearm equipped with a silencer during the commission of a crime.

Amends the forfeiture provision to require that a firearm be "involved in or used" (instead of "involved in or used or intended to be used") in a knowing violation of the Gun Control Act. Directs the court to award attorney fees to the prevailing party (other than the United States) in such forfeiture actions.

Imposes a mandatory sentence of not less than 15 years imprisonment and a fine of not more than $25,000 for individuals with three or more prior convictions of robbery or burglary who are convicted of illegally shipping firearms in interstate or foreign commerce. Prohibits the court from: (1) suspending such sentence; or (2) granting parole or probation.

Permits any person prohibited from possessing, shipping, transporting, or receiving firearms or ammunition to apply to the Secretary for relief from such prohibition. Permits any person denied such relief to seek de novo judicial relief in Federal court.

Makes the authority of the Secretary to permit the importation of certain types of firearms nondiscretionary. Makes it unlawful to import any frame, receiver, or barrel of a firearm which, if assembled, would be prohibited.

Amends the rulemaking authority of the Secretary to provide that no regulation may require: (1) the transfer of records required under this Act to a facility owned, managed, or controlled by the United States or any State; or (2) the establishment of any system of registration of firearms, firearm owners, or firearm transactions. Requires a 90-day public comment period for proposed regulations.

Prohibits the Secretary from prescribing regulations which require purchasers of black powder to complete affidavits or forms attesting to their exemption from certain provisions of the Federal criminal code.

Permits the interstate transportation of unloaded firearms by any person not prohibited by Federal law from such transportation regardless of any State law or regulation.

Imposes additional penalties for the use of armor-piercing ammunition during the commission of certain drug trafficking crimes.

Amends the National Firearms Act to include within the definition of "machinegun" any part designed and intended solely and exclusively for use in converting a weapon to a machinegun. (Current law includes only a "combination of parts" within such definition.)

Safe Drinking Water Act Amendments of 1986 - *Title I: Public Water Systems* - Amends the Safe Drinking Water Act (SDWA) to make existing national interim primary drinking water regulations final.

Directs the Administrator of the Environmental Protection Agency (EPA), within varying time periods for specified listed contaminants, to simultaneously publish maximum contaminant level goals and promulgate national primary drinking water regulations. Permits the substitution of seven unlisted contaminants for listed contaminants when the Administrator determines that regulating such unlisted contaminants would be more protective of the public health. Requires publication and an opportunity for public comment concerning such substitutions .

Requires the Administrator to publish a priority list of contaminants, by January 1, 1988, and every three years thereafter. Requires the Administrator to establish an advisory working group to assist in preparing such list. Requires that each maximum contaminant level goal allow an adequate margin of safety and that each national primary drinking water regulation specify a maximum level which is as close to the goal as is feasible.

Authorizes the Administrator to promulgate a national primary drinking water regulation that requires the use of an acceptable treatment technique in lieu of establishing a maximum contaminant level if it is not economically or technologically feasible to establish such a level.

Directs the Administrator to propose and promulgate primary drinking water regulations specifying when public water systems using surface water as a source of supply must use filtration. Directs the Administrator to provide procedures for States or the EPA to use when determining which of such systems within its jurisdiction must use filtration. Requires States to prescribe compliance schedules and necessary regulations.

Directs the Administrator to promulgate disinfection regulations applicable to all public water systems, including variances and technical assistance. Requires that special consideration be given to providing technical assistance to small public water systems.

Requires the triennial review of national primary drinking water regulations to include an analysis of any changes in technology or treatment techniques, such changes to be published and their nonfeasibility explained.

Directs the Administrator to provide the Science Advisory Board an opportunity to comment prior to proposal of a maximum contaminant level goal and national primary drinking water regulation.

Increases daily civil penalties for violations of such regulations or other requirements. Authorizes the Administrator to issue compliance orders as well as bring civil suits to enforce these provisions.

Directs the Administrator to amend regulations to provide for varying types and frequencies of public notice of violations by a public water system, depending upon their frequency and seriousness.

Requires a State to prescribe a schedule of compliance and implementation of control measures at the same time it grants a variance or an exemption. Permits a variable standard of best available technology according to the number of persons served or other physical characteristics. Permits the primary enforcing authority (State or Administrator) to extend an exemption for up to three years after the issue date if a system in good faith cannot meet the standard without capital improvements or financial assistance, or has agreed to become part of a regional public water system. Permits exemption renewals for systems with 500 or fewer service connections if they are taking all practicable steps to meet the applicable standard.

Authorizes the Administrator to take into consideration the size of a public water system and the contaminants likely to be found in its drinking water in requiring a system to monitor for unregulated contaminants.

Directs the Administrator to promulgate regulations requiring every public water system to conduct a monitoring program for unregulated contaminants at least once every five years, unless the Administrator requires more frequent monitoring. Authorizes the primary State enforcement authority to delete contaminants for an individual system after Administrator approval of the assessment.

Directs the Administrator to require groundwater monitoring at all locations to detect fluids migration into underground drinking water sources from a class I injection well. Requires the Administration to report to the Congress by September 1987 on State surveys of disposal wells which discharge nonhazardous waste into or above underground sources of drinking water.

Directs the Administrator to issue a compliance order or commence a civil action if a State does not enforce violations of the underground injection control program. Increases the maximum per day penalty for violations. Revises other provisions relating to the imposition of civil penalties.

Establishes procedures for the development, implementation, and assessment of demonstration programs designed to protect critical aquifer protection areas located within areas designated as sole or principal aquifers under specified provisions of the Safe Drinking Water Act. Sets forth factors to be considered when identifying such critical areas, including the vulnerability of the aquifer to contamination due to hydrogeologic characteristics, the number of persons affected, and the economic, social, and environmental costs and benefits involved.

Authorizes the Administrator to enter into cooperative agreements with an applying State or local government to provide a 50 percent grant for the costs of developing and implementing a comprehensive management plan for the protection area.

Requires each State to report to the Administrator by the end of 1989 on the impact of the program on groundwater quality. Directs the Administrator to report to the Congress by the end of FY 1990 on the State reports and on the accomplishments of the program, identifying the most effective protection methods.

Requires each State to adopt and submit to the Administrator for approval a comprehensive State plan to protect wellhead areas from unhealthy contamination. Requires such plans to: (1) identify the implementing agency; (2) identify each wellhead protection area and its contaminaton potential; (3) describe a management and education program to protect the water supply; (4) require consideration of potential contaminants from human activities within the expected wellhead area of a new well; and (5) guarantee alternative drinking water supplies when a wellhead source becomes unhealthy to persons. Sets forth when a wellhead source becomes unhealthy to persons. Sets forth submission and resubmission procedures. Requires State compliance with these submission and resubmission procedures. Requires State compliance with these requirements as a condition of receiving funds for a State underground injection program.

Limits the use of funds authorized for these purposes to these purposes.

Requires each State to implement its plan within two years of its adoption if possible, submitting a progress report to the Administrator within that time regarding implementation.

Requires Federal agencies involved in affecting activities in a critical recharge area identified in an approved State plan to act in a manner consistent with such plan.

Requires States with more than 2,500 active wells using annular injections to certify the existence and enforcement of a State program providing protection against contamination.

Reduces such percentage for members with less than 30 years of service.

Requires the Secretary of Defense, effective on December 1 of each year, to increase, in accordance with a formula reflecting changes in the consumer price index (CPI) for that year, the retired pay of those who first become members: (1) before August 1, 1986; or (2) on or after August 1, 1986. Outlines rules concerning the initial adjustment in retirement pay both with and without an intervening increase in the rate of basic pay, as they relate to the CPI.

Increases the retired pay for members entering the service on or after August 1, 1986, upon reaching age 62.

Requires the use of the retired pay base in computing the retired pay of members who first became members before September 8, 1980. Defines the retired pay base for members who: (1) retire due to physical disability; (2) meet certain age and years-of-service requirements; (3) retire as warrant officers; or (4) are regular commissioned officers attaining age 62. Defines the retired pay base for: (1) voluntary retirement from the Army, Navy, Marine Corps, Air Force, and Coast Guard; and (2) commissioned officers of the National Oceanic and Atmospheric Administration (NOAA) and of the Public Health Service. Outlines special retired pay for former chiefs of the service branches and their senior enlisted members.

Defines the retired pay base of members who first become members after September 7, 1980. Outlines special rules in the computation of such pay for members: (1) retiring with less than 30 years of service; (2) retiring due to short-term disability; and (3) retiring with non-regular service (reserve duty).

Outlines certain rules of construction for purposes of the computation of retired pay.

Title II: Conforming Amendments to Computation of Retired Pay - Revises other Federal provisions concerning the computation of retired pay to conform with retired pay base changes made under this Act. Directs that a person be paid under the retired pay formula most favorable to such person. Provides a formula to determine the retired pay of a person whose pay must be recomputed due to post-retirement active duty.

Provides for the recomputation of retired pay for enlisted members and warrant officers of the Army, Navy, Marine Corps, and Air Force who are advanced on the retired list due to post-retirement temporary appointments or reserve duty. Provides a retired pay computation for members of the Coast Guard.

Amends the Coast and Geodetic Survey Commissioned Officers Act of 1948 to provide for the computation of retired pay for a commissioned officer on the retired list of NOAA who first became a member either before or after September 8, 1980. Prohibits the retired pay so computed for such officers from exceeding 75 percent of the retired pay base.

Amends the Public Health Service Act to provide for the computation of retired pay for the mandatory or voluntary retirement of commissioned officers of the Public Health Service who first became members either before or after September 8, 1980.

Title III: Miscellaneous Retirement Provisions - Uses the unreduced retired pay in effect before the enactment of this Act in determining any Survivor Benefit Plan annuity to be paid to the surviving spouses of deceased members of the armed forces.

Requires the Secretary of Defense, no later than February 1, 1988, to report to the Congress on the retirement system for members performing non-regular service.

Recomputes the retired pay to reflect later active-duty service of members who first became members before September 8, 1980.

Outlines provisions which provide for the entitlement to retainer pay for enlisted members who transfer to the Fleet Reserve or the Fleet Marine Corps Reserve after the completion or near-completion of a full term of active duty. Repeals Federal law which prohibits the payment of such retired or retainer pay from out of the Department of Defense Military Retirement Fund.

Terminates the six-month rounding rule, which gives credit for a full six months of service (for purposes of the determination of retired pay) even though a part of such period is not actually served. Provides as an exception to the termination of such rule those members applying for retirement or transfer before January 1, 1982, who take certain specified action. Repeals Federal law prohibiting payments to such members, out of the Department of Defense Military Retirement Fund, who applied for retirement or fleet transfer before such date.

Repeals Federal law which limits during FY 1986 the amounts available to be obligated for basic pay and payments into the Department of Defense Military Retirement Fund.

Specifies certain programs, projects, and activities within the Department of Defense (DOD) for which specified funds are authorized to be obligated during FY 1986, and for which amounts were provided in FY 1986 defense appropriations. Requires the Secretary of Defense, before any amounts are obligated or expended for each such project, to submit a report to the appropriate congressional committees setting forth the manner in which funds are to be obligated for each project.

Authorizes the Secretary of the Navy to carry out a specified military construction project at the Naval Station, Staten Island, New York, funds for such project having been appropriated in a previous Act. Increases the appropriation authorization totals of the Department of the Navy and of military construction projects by the amount required for the authorized construction, above.

Title V: Miscellaneous Provisions - Establishes the position of Under Secretary of Defense for Acquisition, appointed from civilian life by the President, by and with the advice and consent of the Senate. Redesignates the position of Under Secretary of Defense for Research and Engineering as the Director of Defense Research and Engineering.

Limits the expenditure of funds for the procurement of T-46 trainer aircraft.

Prohibits the Secretary of Defense from awarding a contract with respect to a specified defense contract (for the purchase of crawler tractors) until the Congress by law establishes a policy regarding the awarding of defense contracts to firms in which a foreign government has a significant interest. Provides an exception to such prohibition if such policy has not been established by the end of the 99th Congress.

Conservation Service Reform Act of 1986 - *Title I: Residential Conservation Service* - Amends the National Energy Conservation Policy Act to extend from 1985 to June 30, 1989, the date through which utility programs and home heating supplier programs must provide certain energy conservation information to new owners or occupiers of a residential building (residential customers).

Eliminates requirements that each utility and participating home heating supplier: (1) offer to arrange to have suggested conservation measures installed and for a loan to finance them; and (2) provide residential customers with a list of suppliers, contractors, and lending institutions.

Amends the definition of "residential building" to include previously exempted buildings which had central heating or cooling systems. Exempts five-or-more-unit multifamily buildings without individual meters from the energy information requirements of the Act.

Treats residential energy conservation plans which were approved before the effective date of this Act as adequately implemented approved plans if they meet the requirements of this Act.

Extends the authority of the Secretary of Energy to grant or renew temporary exemptions to certain information requirements and prohibitions. (Current law provides for a maximum three-year exemption.)

Authorizes the States to formulate and certify alternative State residential energy conservation plans. Sets forth the criteria for the formulation, content, and certification of such plans (including administrative and judicial enforcement). Requires States which have such an alternative plan to submit an annual report to the Secretary describing the plan's implementation and results. Prohibits the inclusion of a nonregulated utility in such alternative plans unless authorized under State law or agreed to by the nonregulated utility.

Authorizes States to provide incentives for utilities to meet the goals contained in the State alternative plan.

Provides guidelines under which a utility may receive a waiver from any provision of a Federal or State residential energy conservation plan if the utility demonstrates that: (1) its conservation plan results in savings that are equal to or greater than the governmental plan; and (2) adequate procedures are in effect that prevent deceptive or anticompetitive practices. Provides an approval mechanism whereby the Secretary of Energy shall approve a utility request for such waiver. Provides for revocation of such waivers by the Secretary if the State Governor determines that the affected utility is not in compliance with the criteria for a waiver.

Requires the Secretary to submit reports to certain congressional committees regarding the residential energy conservation plans, alternative State plans, and alternative utility plans.

Requires the Secretary to disseminate information annually to States and public utilities regarding: (1) technical assistance; (2) cost-effective residential energy conservation measures; and (3) the most successful residential energy conservation plans. Requires the Secretary to disseminate such information to the public through regional seminars.

Requires the Comptroller General to submit to the Congress before December 31, 1986, an evaluation of residential energy conservation measures and programs implemented under the National Energy Conservation Policy Act. Directs the Secretary of Energy to conduct a survey, in consultation with the Comptroller General, to collect the information determined necessary for such report. Details the requirements of such report.

Terminates on June 30, 1989, all Federal authority regarding residential conservation service plans.

Limits the current general (grandfather) exemption of certain utilities from the prohibition against the direct supply and installation of conservation measures by public utilities. Continues such exemption, as of July 1, 1987, only for those grandfathered utilities which actually supplied and installed such measures during the 12 months before June 1, 1985.

Prohibits specified unfair pricing and other competitive activities by such exempted utilities. Authorizes any interested State resident to request a State regulatory authority or, in certain circumstances, the Federal Trade Commission (FTC) to review alleged unfair activities by such utilities. Directs the FTC to take specified enforcement actions if it finds a utility in violation of a prohibition.

Title II: Commercial Buildings and Multifamily Dwellings - Repeals title VII of the National Energy Conservation Policy Act relating to energy conservation for commercial buildings and multifamily dwellings. Authorizes certain previously approved State energy conservation plans for commercial buildings and multifamily dwellings to continue in effect with respect to regulated utilities until January 1, 1990.

Establishes a minimum price threshold that is the higher of either: (1) 90 percent of the current sales price of comparable petroleum in the same area; or (2) the price of Strategic Petroleum Reserve oil minus the cost of transporting such oil from the Naval Reserve to the Strategic Petroleum Reserve.

Reduces from 30 days to 15 days the period of Justice Department review of National Petroleum Reserve contracts for antitrust violations.

Comprehensive Anti-Apartheid Act of 1986 - *Title I: Policy of the United States with respect to ending apartheid* - Requires U.S. policy toward South Africa to be designed to bring about the establishment of a nonracial democracy in South Africa. Sets forth actions that the United States shall encourage South Africa to take, including releasing Nelson Mandela and establishing a timetable for the elimination of apartheid laws. Requires the United States to adjust its actions toward South Africa to reflect the progress made by South Africa in establishing a nonracial democracy.

Declares that U.S. policy toward the African National Congress, the Pan African Congress, and their affiliates shall be designed to bring about a suspension of violence that will lead to the start of negotiations. Requires the United States to work toward this goal by encouraging such organizations, through diplomatic and political measures, to: (1) suspend terrorist activities; (2) make known their commitment to a free and democratic post-apartheid South Africa; (3) agree to enter into negotiations for the peaceful solution to South Africa's problems; and (4) reexamine their ties to the South African Communist Party. Requires the United States to adjust its actions toward South Africa not only to reflect progress or lack of progress made by South Africa in establishing a nonracial democracy but also to reflect progress or lack of progress made by such organizations in bringing about a suspension of violence.

Declares that U.S. policy toward the victims of apartheid is to use economic, political, diplomatic, and other means to remove the apartheid system and to assist the victims of apartheid to overcome the handicaps imposed on them by apartheid. Sets forth actions the United States will take to help the victims of apartheid.

Declares that U.S. policy toward the other countries in the region shall be designed to encourage democratic forms of government, respect for human rights, political independence, and economic development. Sets forth actions the United States will take toward such countries.

Declares that it is U.S. policy to promote negotiations among representatives of all citizens of South Africa to determine a future political system.

Expresses the sense of the Congress that high-level U.S. officials should meet with leaders of opposition organizations in South Africa and should, in concert with other interested parties, try to bring together opposition political leaders with South African Government leaders for negotiations to achieve a transition to the post-apartheid democracy envisioned in this Act.

Declares that the United States will encourage all participants in the negotiations to respect the right of all South Africans to participate in the political process without fear of retribution. Requires the United States to work for an agreement to suspend violence and begin negotiations through coordinated actions with the major Western allies and with the governments of the countries in the region.

Expresses the sense of the Congress that the achievement of such an agreement could be promoted if the United States and its major allies would meet to develop a plan to provide multilateral assistance for South Africa in return for South Africa implementing: (1) an end to the state of emergency and the release of political prisoners; (2) the unbanning of groups willing to suspend terrorism and to participate in negotiations and a democratic process; (3) a revocation of the Group Areas Act and the Population Registration Act and the granting of universal citizenship to all South Africans, including homeland residents; and (4) the use of a third party to bring about negotiations to establish power-sharing with the black majority.

Urges the President to seek cooperation among all individuals, groups, and nations to end apartheid.

Requires the use of Economic Support Fund monies, in addition to the funds used for purposes described in the preceding paragraph, to finance scholarships for students pursuing secondary school education in South Africa. Requires the selection of such scholarship recipients to be by a nationwide panel or by regional panels appointed by the U.S. chief of diplomatic mission to South Africa. Earmarks a specified amount of the funds made available to such organizations to provide assistance to political detainees and prisoners and their families.

Exempts from a specified certification requirement exports to or purchases from such businesses.

Expresses the sense of the Congress that the labor practices used by the U.S. Government in South Africa should represent the best of U.S. labor practices and should serve as a model for U.S. nationals in South Africa. Requires the Secretary and the heads of other agencies carrying out activities in South Africa to ensure that the labor practices used in South Africa are governed by a specified Code of Conduct.

Requires the Secretary to acquire residential properties in South Africa that shall be made available to assist victims of apartheid who are U.S. employees in obtaining adequate housing. Requires such property to be acquired only in neighborhoods open to other U.S. employees. Authorizes appropriations for FY 1987 for such housing.

Requires any U.S. national who employs more than 25 persons in South Africa to insure that the Code of Conduct is implemented. Prohibits U.S. intercession with any foreign government or foreign nation on behalf of any U.S. national employing more than 25 persons in South Africa if such U.S. national does not implement the Code of Conduct.

Export-Import Bank Act Amendments of 1986 - Amends the Export-Import Bank Act of 1945 to authorize the Export-Import Bank (the Bank) to collect fees to cover the marginal costs of the Bank's conferences and publications.

Prohibits the Bank from imposing a credit application fee unless specified conditions relating to the competitiveness of the fee and the availability of repayment options are met.

Requires the Bank to establish the following measures to enhance the Bank's medium-term financing program; (1) improve the competitiveness of the Bank's medium-term financing; (2) ease the administrative, procedural, and documentary requirements imposed on users of medium-term financing; (3) attract the widest possible participation of private capital in the medium-term financing of U.S. exports; and (4) render the Bank's medium-term financing as supportive of U.S. exports as is its direct loan program. Requires the Bank to report to the Congress by April 15, 1988, on such measures.

Declares that the Bank's terms and conditions need not be identical in all respects to those offered by foreign countries.

Requires the Bank to provide medium-term risk protection coverage through multiple exporter organizations for the members and clients of such organizations.

Prohibits the denial of access to Bank financing, guarantee, and insurance programs solely because the entity seeking access is not a bank or is not a U.S. person.

Prohibits assistance under the Export-Import Bank Act of 1945 to Marxist-Leninist countries defined as countries which: (1) maintain a centrally-planned economy based on the principles of Marxism-Leninism; or (2) are dependent on the Soviet Union or any other Marxist-Leninist country. Sets forth a list of such countries. Provides for the waiver of such prohibition if the President determines that a country on such list has ceased to be a Marxist-Leninist country.

Prohibits the Bank from guaranteeing, insuring or extending credit in connection with exports (except food or agricultural exports) to Angola until the President certifies to the Congress that no combatants or military advisors from Cuba or any other Marxist-Leninist country remain in Angola.

Requires the bank to authorize the transferability of medium- and long-term obligations insured or guaranteed by the Bank without affecting, limiting, or terminating the guarantee or insurance provided by the Bank.

Prohibits the Bank from extending credit or guarantees for establishing or expanding production of any commodity for export by any country other than the United States, if: (1) there is likely to be a world surplus of such commodity by the time the resulting production capacity becomes operative or the resulting production capacity is expected to compete with U.S. production of the same, similar, or competing commodity; and (2) the assistance will cause substantial injury to U.S. producers of a competing commodity. Declares that such prohibition shall not apply if the short- and long-term benefits to U.S. industry and employment are likely to outweigh the injury to U.S. competitors.

Requires the Bank, in all cases involving potential adverse impact on domestic industries or employment, to consider and address in writing the view of parties who may be substantially adversely affected by the loan or guarantee before taking final action on such loan or guarantee.

Authorizes appropriations for FY 1987 to cover the net subsidy cost of new direct loans under the program limitations of FY 1987.

Extends the authority of such Act through FY 1992.

Amends the Export-Import Bank Act Amendments Act of 1978 to require the Secretary of the Treasury to authorize the Bank to provide guarantees, insurance, and credits to competing U.S. sellers, unless: (1) the availability of foreign official noncompetitive financing is not likely to be a significant factor in the sale, or (2) the foreign competitive financing has been withdrawn.

Requires the Bank and the Office of Management and Budget to report to the Congress and the General Accounting Office on: (1) the need for U.S. Government involvement in export credit insurance; (2) the need to employ an agent in administering government-supported insurance programs; and (3) the efficiency and effectiveness of continuing to use the Foreign Credit Insurance Association as the Bank's agent.

Amends the Export-Import Bank Act of 1945 to authorize any Bank director whose term has expired to serve an additional six months or until a successor has been qualified, whichever occurs earlier.

Requires the Bank to establish a tied aid credit program under which grants shall be made from the Tied Aid Credit Fund to supplement: (1) the financing of a U.S. export when there is a reasonable expectation that predacious financing will be provided by another country for a competitor of the U.S. exporter; (2) the financing of U.S. exports to foreign markets which are actual or potential export markets for any country which engages in predacious official export financing and impedes negotiations to eliminate the use of such credits for commercial purposes; or (3) the financing of U.S. exports under other appropriate circumstances.

Requires the Bank to administer such program in consultation with: (1) the Secretary of the Treasury; (2) appropriate private financial entities; and (3) the National Advisory Council on International Monetary and Financial Policies. Authorizes the Bank to combine grants from the Tied Aid Credit Fund with other forms of export financing, including financing from the Bank or private financial entities.

Authorizes the U.S. Trade Representative and the Secretary of Commerce to provide information to the appropriate officials on principal sectors and key markets of countries that engage in predacious export financing and impede negotiations to limit official export financing.

Establishes within the Bank the Tied Aid Credit Fund to be used in such tied aid credit program. Requires that any export financing involving the use of a grant under the tied aid credit program shall be consistent with the procedures established by the Arrangement on Guidelines for Officially Supported Export Credits. Authorizes appropriations for the Tied Aid Credit Fund for 1987 and 1988. Provides for recission of funds appropriated to the Tied Aid Credit Fund if the appropriations are not needed to achieve the purpose of the Fund.

Requires the Bank to report to the President and to the Congress every six months on tied aid credits. Sets forth information to be included in the report.

Authorizes the Bank to make interest subsidy payments to commercial lenders who make loans in support of U.S. exports when financing at less than market rates is required for such exports in order to respond to subsidized financing offered by foreign export credit agencies. Provides that the authority of the Bank to make such interest subsidy payments is effective only if the direct loan authority of the Bank meets a specified minimum amount. Limits the amount of such payments by the Bank to the amount appropriated to the Bank for such purposes. Authorizes appropriations for such purposes for FY 1986. Terminates the authority to make such interest subsidy payments on October 1, 1988.

Requires the Comptroller General to report to the Congress by March 1, 1988, on the Bank's use of its authority to make interest subsidy payments. Sets forth information to be included in such report.

Expresses the sense of the Congress that U.S. interests are best served when U.S. business transactions in Angola do not support Cuban troops and Soviet advisers. Requests the President to use special authorities under the International Emergency Economic Powers Act to restrict U.S. business transactions that conflict with U.S. security interests in Angola.

Directs the Secretary of the Treasury to instruct the U.S. Executive Directors of specified international development banks to oppose any assistance by such institutions for the production or extraction of any commodity or mineral for export if: (1) there is a world surplus of such commodity or mineral; and (2) the export of such commodity or mineral would cause substantial injury to competing U.S. producers.

Electric Consumers Protection Act of 1986 - Amends the Federal Power Act to require the Federal Energy Regulatory Commission (the Commission) to give preference to State and municipal applicants when issuing original licenses for hydroelectric projects.

Directs the Commission, when issuing such licenses, to give equal consideration to: (1) energy conservation; (2) fish and wildlife protection; (3) recreational opportunities; and (4) environmental quality. Requires that licenses be granted upon the condition that the project adopted shall, in the judgment of the Commission, be the one best adapted to a comprehensive plan which encompasses: (1) fish and wildlife protection (including spawning grounds and habitat); and (2) irrigation, flood control and water supply. Requires the Commission to consider when making such judgment: (1) the extent to which a project is consistent with a comprehensive plan for waterways; (2) the recommendations of governmental agencies; (3) the recommendations of Indian tribes affected by the project; and (4) the electricity consumption efficiency improvement program of specified applicants. Requires the Commission to solicit recommendations from such agencies and Indian tribes upon the receipt of a license application.

Requires such licenses to include conditions for the protection and enhancement of fish and wildlife based upon recommendations received from certain fish and wildlife agencies.

Prescribes the criteria governing the relicensing process, and directs the Commission to: (1) ensure that insignificant differences betweeen competing applicants shall be neither determinative nor result in the transfer of a project; (2) consider the long and short term needs of the applicant for the electricity to serve its customers; and (3) take into consideration the effect of the transfer of a project on the direct providers (and their immediate customers) of alternative or replacement power. Prohibits the Commission, when issuing a new license to an applicant which is not the existing licensee, from: (1) compelling an existing licensee to acquire new facilities as a condition of providing transmission services, unless such acquisition constitutes a reasonable improvement of existing facilities controlled by the existing licensee; (2) causing any reasonably quantifiable increase in the jurisdictional rates of the existing licensee; or (3) ordering any entity other than the existing licensee to provide transmission or other services.

Repeals the requirement that the Commission entertain new license applications no earlier than five years before the expiration of an existing license.

Requires the Commission to review all provisions of the Federal Power Act requiring an action within a 30-day period and (as the Commission deems appropriate) to require such period to mean working days rather than calendar days.

States that new licenses must be issued for a minimum term of 30 years, and for a maximum term of 50 years.

Prohibits any significant modification of licensed projects unless such modification is authorized in accordance with an issued license or exemption and the requirements of the Federal Power Act.

Prohibits the Commission from granting any exemptions from the Federal Power Act to State or local governments operating a conduit hydroelectric facility exceeding 40 megawatts solely for municipal water supply purposes.

Directs the Commission to establish license application fees which are adequate to reimburse fish and wildlife agencies for their costs in implementing the compliance provisions of this Act.

Amends the Public Utility Regulatory Policies Act of 1978 (PURPA) to preclude a facility requiring a natural watercourse diversion by means of a new dam or diversion from being treated as a qualifying small power production facility unless: (1) its contract terms protect fish and wildlife; (2) the Commission finds such facility will not have a substantial adverse effect upon the environment; and (3) the Commission determines its location is not upon a State or national wild and scenic river system, or any otherwise unique watercourse which a State has determined would be adversely affected by hydroelectric development. States that such fish and wildlife and other environmental requirements will not apply if the license or exemption application was filed before the enactment of this Act and accepted for filing by the Commission within three years after such enactment. States that the fish and wildlife requirements shall not apply for projects where the license or exemption application was filed after enactment of this Act if the applicant demonstrates the commitment of substantial monetary resources directly related to the project, and to the timely completion of all filing requirements acceptable to the Commission prior to the date of enactment of this Act.

Requires the Commission to conduct a study to determine whether the benefits relating to cogeneration and small power production plants should be applied to small power production facilities using new dams or water diversion systems. Requires the submittal of such study to specified congressional committees.

Establishes a moratorium period (beginning on the date of enactment of this Act and ending at the expiration of the first full session of Congress after the session during which such study has been submitted) during which PURPA shall not apply to cogeneration or small power projects, with specified exceptions, for which a license or exemption is issued after the enactment of this Act if such projects utilize a new dam or diversion.

Prescribes the charges to be paid by licensees for the use of Federal dams and related structures.

Lists those relicensing procedures initiated prior to October 1983 which are subject to the provisions of this Act. Outlines the election and negotiation procedures for contested hydroelectric projects subject to litigation.

Exempts from the provisions of this Act certain proceedings relating to the Merwin Dam in Washington State.

Directs the Commission to monitor and investigate applicant compliance with the terms granted under a license or exemption, and authorizes the Commission to issue revocations and to assess civil penalties for violations.

Requires the inclusion of antitrust provisions in any licenses issued by the Commission under this Act.

Requires license applicants to timely notify certain persons who have an interest or are affected by the property within the bounds of the project.

Prohibits the Commission from issuing any license or exemption for any hydroelectric power project located at Lake Tuscaloosa (Alabama), unless the Commission is authorized to do so by law enacted after the enactment of this Act.

Authorizes the Commission to extend the time limitations for construction and for the acquisition of real property for specified projects. Terminates such authorization three years after enactment of this Act.

Prohibits the Commission, with specified exceptions, from issuing any license or exemption for any project proposed for the Henry's Fork of the Snake River (Idaho), unless authorized by law enacted after the enactment of this Act.

Requires the Secretary to study the adequacy with which the PPS compensates hospitals, and distributes such compensation among hospitals, for costs attributable to patients' extended hospital stays necessitated by delays in patient placement in skilled nursing facilities.

Provides that, until November 1988, hospice programs which keep their services for which Medicare coverage is denied below specified percentages and comply with certain administrative requirements shall not subsequently be denied payment for care provided. Extends such limitations on provider liability, through FY 1988, for disallowed Medicare claims for home health services provided to individuals who were not homebound or did not require skilled nursing care on an intermittent basis. Sets forth reporting requirements.

Directs the Secretary to develop a uniform needs assessment instrument enabling health care providers and fiscal intermediaries to evaluate an individual's need and ability to pay for post-hospital extended care, home-health, and long-term care services.

Amends the Social Security Amendments of 1983 to extend, through 1989, the annual report on the impact of the PPS and require the inclusion of information in such reports regarding the quality, and accessibility to Medicare beneficiaries, of post-hospital services.

Directs the Secretary to conduct, and report to the Congress by February 1989, on, a demonstration program concerning prior and concurrent authorization for Medicare post-hospital extended care and home health services.

Applies the formula used to determine additional payments for urban hospitals serving a disproportionate share of low-income patients to rural hospitals of at least 500 beds which serve a disproportionate share of low-income patients. Continues disproportionate share payments for patient discharges occurring prior to FY 1990.

Sets forth technical amendments and miscellaneous provisions.

Part 2: Provisions Relating to Parts A and B - Eliminates periodic interim payments for PPS hospitals when prompt payments have been received for three consecutive months. Permits certain PPS hospitals, such as small rural hospitals and hospitals serving a disproportionate share of low-income patients, to continue to receive periodic interim payments. Authorizes the Secretary to make accelerated payments to hospitals experiencing significant cash flow problems. Requires Medicare intermediaries and carriers to process and pay at least 95 percent of all clean Medicare claims within 30 days of receiving such claims in FY 1987. (Such time limit is to be reduced in each succeeding fiscal year until it stands at 24 days in FY 1990.) Assesses interest on late claims payments.

Amends the Tax Equity and Fiscal Responsibility Act of 1982 to repeal the requirement that health maintenance organizations (HMOs) which had a Medicare cost contract but sign a risk contract enroll two new risk contract enrollees before they convert one cost contract member. Amends the Medicare program to require HMOs and competitive medical plans (CMPs) to provide Medicare beneficiaries with an explanation of their rights as enrollees when they enroll and at least annually thereafter. Prohibits new waivers of the requirement that no more than 50 percent of such enrollees be Medicare or Medicaid (title XIX of the Act) eligible, unless more than 50 percent of the population in the area served by the organization consists of Medicare or Medicaid-eligible individuals or the organization is publicly owned and operated. Provides that, where a waiver has already been granted for some other purpose, such waiver may only be extended if the Secretary determines that the organization is making reasonable efforts to meet scheduled enrollment goals. Authorizes the Secretary to suspend the enrollment of Medicare beneficiaries or payment for newly enrolled individuals in organizations failing to comply with enrollment requirements. (Currently, the Secretary's sanction authority is limited to terminating the risk-sharing with the HMO or CMP.)

Requires HMOs and CMPs to meet the time limts for paying provider clean claims, except where the HMO or CMP is under contract with the provider. Requires HMOs and CMPs to give the Secretary access to the financial records of certain subcontractors and notification as to their loans and special financial arrangements with subcontractors, affiliates, and related parties. Authorizes the Secretary to impose a civil monetary penalty on HMOs or CMPs which substantially fail to provide medically necessary items and services, provided such failure adversely affects HMO or CMP enrollees. Requires a study into methods by which adjusted average per capita cost and adjusted community rate calculations (used in calculating payments to HMOs and CMPs) can be refined. Permits Medicare beneficiaries to disenroll from an HMO at any local office of the Social Security Administration. Authorizes HMOs and CMPs to use benefit stabilization funds to offset any FY 1986 payment reductions resulting from the Balanced Budget and Emergency Deficit Control Act of 1985 (Gramm-Rudman-Hollings Act).

Allows providers to represent beneficiaries in appeals of claim denials, but prohibits providers from charging beneficiaries for the items and services involved in the appeal or for such representation. Prohibits providers which represent beneficiaries in unsuccessful appeals of claim denials from treating representation costs as reasonable costs covered by Medicare. Gives beneficiaries the right to appeal any payment denial for home health services.

Amends part A (General Provisions) of title XI of the Act to prohibit hospitals, HMOs, and CMPs from making payments to a physician as an inducement to reduce or limit services to Medicare or Medicaid beneficiaries under the physician's care. Directs the Secretary to report to the Congress by 1988 on providing HMOs and CMPs with an appropriate exception to the incentive payment prohibition.

Directs the Secretary to arrange a study which would serve as the basis for a strategy assuring the quality of Medicare services. Requires the Secretary to designate an office to coordinate studies relating to the quality of Medicare and Medicaid services.

Counts, for the purpose of reimbursing hospitals for direct costs of medical education, all the time a resident spends in patient care activities regardless of the setting of those activities, provided the hospital is incurring substantially all of the costs for such training.

Sets limits on Medicare payments for home health service, but requires that such limits be applied on an aggregate rather than a discipline-specific basis for home health agencies.

Requires the Secretary to establish a program providing for research regarding outcomes of selected medical treatments and surgical procedures so as to assess their quality and effectiveness. Places a priority on the selection of procedures and treatments with significant costs, risks, hospitalization periods, and utilization patterns.

Authorizes appropriations from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund for FY 1987 through 1989 to carry out such research. Requires that at least 90 percent of the funds available in any fiscal year be used to fund grants to, and cooperative agreements with, non-Federal research entities.

Directs that the program be administered by the National Center for Health Services Research and Health Care Technology (Center). Requires the Center to report to the Congress, within 18 months of enactment of this Act and annually thereafter, on the findings of the project.

Amends part A (General Provisions) of title XI of the Act to expand the doctrine of collateral estoppel to make it applicable when an individual has entered a plea of nolo contendere in a Federal criminal prosecution and attempts to relitigate the essential elements of the offense in civil monetary penalty proceedings charging such individual with presenting false or improper claims under the Medicare, Medicaid, or Maternal and Child Health Services (title V of the Act) programs. Authorizes officials conducting such civil monetary penalty proceedings to impose limited sanctions on any party or attorney for failing to comply with orders, failing to defend an action, or other misconduct interfering with the speedy, orderly, or fair conduct of the hearing. Defines the term "convicted", for the purposes of excluding providers convicted of Medicare or Medicaid-related crimes from participating in such programs, to include: (1) convictions entered in a local, State, or Federal court, regardless of whether an appeal is pending or the conviction has been expunged from an individual's criminal record; (2) findings of guilt by a Federal, State, or local court; (3) a plea of guilty or nolo contendere accepted by a Federal, State, or local court; and (4) convictions withheld by reason of such individual's participation in a first offender or similar program.

Requires hospitals to establish protocols for encouraging organ and tissue donation by identifying and assisting potential donors in a manner considerate of such donors' families and by notifying an organ procurement agency of potential donors. Requires hospitals performing transplants to abide by the rules of the Organ Procurement and Transplantation Network. Precludes Medicare or Medicaid payments for organ procurement, if the organ procurement agency fails to meet specified standards. Prohibits the Secretary from providing coverage to more than one organization per service area.

Prohibits, until 1992, large group health plans (covering at least 100 employees) from taking an individual's status as a disabled Medicare beneficiary into account in providing coverage. Excludes from such prohibition the consideration of an individual's receipt of Medicare end-stage renal disease benefits. Makes Medicare the secondary payor for disabled Medicare beneficiaries covered by large group health plans. Authorizes the Government to bring an action and collect double damages from primary payors to ensure that Medicare is reimbursed for payments it makes to disabled beneficiaries. Amends the Internal Revenue Code to impose an excise tax equal to 25 percent of group health plan expenses if such a plan restricts its coverage of Medicare beneficiaries in violation of this Act. Establishes a private cause of action for double damages when a workmen's compensation law, insurance policy, or group health plan which is the primary payor fails to make primary payment. Directs the Comptroller General to report to the Congress by March 1990 on the impact such changes have on the access of the disabled and their family members to employment and health insurance.

Provides Medicare part B (Supplementary Medical Insurance) coverage, beginning in 1989, for 80 percent of the lesser of the actual charge or the fee schedule, to be established by the Secretary, for the services of certified registered nurse anesthetists. Requires the Secretary to adjust the fee schedule for anesthesia services to the extent necessary to maintain total payments at the level they would be at if such services continued to be reimbursed as inpatient hospital services under part A of the Medicare program. Requires that payment for certified registered nurse anesthetist services be made on an assigned basis.

Amends the Medicare program to exempt amounts paid by vendors of goods and services to authorized purchasing agents for entities reimbursed under either program from the Act's kickback prohibitions if the purchasing agent: (1) has a written contract with each vendor and each Medicare or Medicaid-reimbursed client specifying the amount or percentage to be paid to the vendor; and (2) discloses the amount it received from the vendor. Sets forth technical amendments and miscellaneous provisions.

Part 3: Provisions Relating to Medicare Part B - Amends part B (Supplementary Medical Insurance) of the Medicare program to set the prevailing charges for nonparticipating physicians at 96 percent of the prevailing charges for participating physicians. Provides that, beginning in 1987, all physicians will receive the same increase in prevailing charges based on the percentage increase in the Medicare Economic Index (MEI). Authorizes nonparticipating physicians to annually increase their actual charges by one percent or, if their actual charges for the previous year were less than 115 percent of the prevailing charges, pursuant to a specified formula.

Directs the Secretary to simplify the HCFA (Health Care Financing Administration) Common Procedure Coding System by July 1989 to minimize the possibility that such system overstates the intensity or volume of services provided. Require's Medicare carriers to make part B payments on the basis of the simplified codes by 1990.

Requires the Secretary, in making recommendations regarding the relative value scale for physicians' services, to establish an index which considers justifiable geographic differences in the costs of practice without exacerbating the geographic maldistribution of physicians.

Requires carriers to implement programs to recruit participating physicians and familiarize beneficiaries with the participating physician program. Provides bonuses to carriers successful in increasing the proportion of physicians in their service area. Directs the Secretary to annually send a letter with title II (Old Age, Survivors and Disability Insurance) benefit checks reminding beneficiaries of the participating physician program and offering them a copy of the directory.

Prohibits physicians who do not accept assignment on a claim from charging a beneficiary for unnecessary services unless: (1) the physician did not know and could not reasonably have been expected to know that the services would be deemed unnecessary; or (2) the beneficiary was informed that Medicare coverage would be denied, but agreed to pay for the services. Requires physicians providing elective surgical procedures (at an actual charge of $500 or more) on an unassigned basis to provide the individual with a written form disclosing charges in excess of the Medicare approved charge and the coinsurance amount applicable to the procedure. Requires hospitals to make the directory available to beneficiaries and, when referring a patient to a nonparticipating physician on an outpatient basis, provide the patient with the name of at least one participating physician.

Sets forth factors which must be considered by carriers in determining reasonable charges for physicians' services. Lists tests and comparisons which may be made and effects which must be considered before the Secretary adjusts the reasonable charge for a physician's service on the grounds that it is not inherently reasonable. Authorizes the Secretary, when faced with a charge the Secretary believes is not inherently reasonable, to propose a reasonable charge or methodology for arriving at such a charge and, after giving the public and the Physician Payment Review Commission an opportunity to comment on such proposal, make a final determination regarding the charge or methodology. Requires the Secretary to review, by October 1987, the inherent reasonableness of the reasonable charges for each of the ten most costly procedures paid for under part B of the Medicare program.

Cuts the prevailing charges for participating and nonparticipating physicians providing cataract surgery by ten percent in 1987 and by an additional two percent in 1988. Limits the number of base units which may be used in computing the payment for anesthesia services during cataract surgery.

Requires a reduction of two dollars in the prospective payment rate for routine dialysis in a free-standing or hospital-based facility.

Sets limits on reductions the Secretary may make in payment rates for free-standing and hospital-based renal disease facilities. Provides that an application by an isolated essential facility for an exception to such rates shall be deemed to be approved unless the Secretary disapproves of it within 60 days of its being filed. Directs the Secretary to report to the Congress, by 1988, on the results of a study evaluating the effects of such rate reductions on access to, and the quality of care provided to, renal disease patients.

Covers immunosuppressive drugs furnished within one year of an individual's Medicare-covered organ transplant.

Directs the Secretary to consolidate existing renal disease network areas into no fewer than 17 areas, giving existing network organizations the first opportunity to perform network functions in a newly designated area. Requires that the network council and medical review board established by each network organization have at least one patient representative. Expands the list of network organization responsibilities to include the: (1) encouragement of patient and provider participation in vocational rehabilitation programs; (2) implementation of a procedure for evaluating and resolving patient grievances; (3) necessary on-site review of facility and provider compliance with standards of care; and (4) collection of data for specified reports.

Requires the Secretary to establish by 1988, a national end-stage renal disease registry for the purpose of collecting uniform and comprehensive data on all dialysis and transplant patients.

Alters the methods of funding network organizations by requiring the Secretary to supply such organizations with 50 cents from each payment otherwise made to a dialysis facility for dialysis services. (Currently, organization funds are provided from the Medicare trust funds.)

Requires the Secretry to establish conditions on the reuse of dialysis filters by facilities and providers which voluntarily reuse such filters. Prohibits facilities, beginning in 1988, from reusing other dialysis supplies unless they are reused pursuant to conditions to be established by the Secretary.

Provides Medicare part B coverage for: (1) the items and services which an optometrist is legally authorized to provide; (2) occupational therapy services in the same manner in which outpatient physical therapy services are covered; and (3) physician-supervised services performed by a physician's assistant in a skilled nursing or intermediate care facility, a hospital, or as an assistant at surgery. Sets forth details regarding payments to physician's assistants, including the requirement that such payments be made on an assigned basis.

Eliminates the payment differential between independent laboratory tests and hospital laboratory tests on outpatients unless a hospital laboratory provides 24-hour services for a hospital's 24-hour emergency room. Postpones, until 1990, the implementation of a national fee schedule for clinical diagnostic laboratory tests performed by a physician and those performed by an independent laboratory. Authorizes payments for transportation and personnel expenses incurred in collecting laboratory samples from certain immobile beneficiaries. Allows laboratories to qualify for Medicare reimbursement if they satisfy State standards regarding the qualifications of the laboratory's director. Amends the Consolidated Omnibus Budget Reconciliation Act of 1985 to extend, until 1988, the moratorium on a demonstration project authorizing competitive bidding for laboratory services.

Directs the Secretary to pay for parenteral and entoral nutrition supplies at the lowest charge levels at which such supplies are widely and consistently available in a locality.

Establishes an appeals procedure for part B claim denials which provides for: (1) review by an administrative law judge if the amount in controversy equals or exceeds $500; and (2) judicial review if the amount in controversy equals or exceeds $1000. Authorizes judicial review of national Medicare coverage determinations provided such determinations are not: (1) overturned by reason of their not having been issued in accordance with the notice and comment procedures in the Administrative Procedure Act; or (2) reviewed by administrative law judges. Prohibits judicial review of part B payment methodologies established by instructions or regulations issued by the Secretary prior to 1981.

Directs the Secretary to conduct at least five, but no more than ten, demonstration projects to determine the feasibility and effectiveness of providing comprehensive services to Medicare beneficiaries who are victims of Alzheimer's disease or related disorders.

Requires payments to be made to hospitals for outpatient hospital services furnished in connection with surgery approved for performance in an ambulatory surgical center (ASC), in accordance with a specified formula. Directs the Secretary to annually review and update ASC prospective rates and biennially review and update the surgical procedures approved for ASC performance and reimbursement. Requires that all services (other than physician services) provided by a hospital outpatient department be billed through the hospital. Requires peer review organizations (PROs) to review the necessity and quality of ambulatory surgical procedures. Imposes the standard part B coinsurance and deductible for ambulatory surgery services. Directs the Secretary to submit to the Congress: (1) an interim report, by April 1988, and a final report, a year later, concerning the development of a fully prospective payment system for ambulatory surgical procedures by FY 1990; and (2) a report, by 1991, on a model payment system for other outpatient hospital services. Requires hospitals to use a HCFA Common Procedure Coding System by July 1, 1987, to report claims for outpatient hospital services.

Provides for the appointment of two additional members to the Physician Payment Review Commission. (Currently, there are 11 Commission members.) Sets forth technical amendments and miscellaneous provisions.

Part 4: Improved Review of Quality by Peer Review Organizations - Amends part B (Peer Review) of title XI of the Act to require peer review organizations (PROs) receiving a hospital inpatient's request for review of a hospital's decision that the patient no longer needs inpatient care, to inform the patient of its decision within one full working day of receiving the request and the patient's medical records. Prohibits hospitals from charging patients for inpatient hospital services provided while patients wait for a PRO to respond to their timely review requests.

Requires fiscal intermediaries to submit data to PROs on a monthly basis. Requires PROs to review selected cases where individuals are readmitted to a hospital within 30 days of their most recent hospital discharge to determine if the previous inpatient hospital services and post-hospital services met professionally recognized health care standards. Excludes physician services provided in an office setting from the scope of readmission review until 1989.

Directs each PRO to commit a reasonable proportion of its activities to review of the quality of services provided, concentrating on cases and settings which have a high potential of yielding quality of care problems. Requires PROs to review inpatient and outpatient services provided by HMOs and CMPs to determine whether the quality of such care meets professionally recognized standards of health care. Authorizes the use of competitive bidding in up to 25 States for PRO review of HMOs and CMPs. Requires the Secretary to: (1) identify methods facilitating the discovery of cases which are more likely than others to involve substandard care; and (2) provide at least 12 PROs with data and data processing assistance so that they may review and analyze small-area variations in the utilization of Medicare services.

Requires each PRO to have at least one consumer representative on its governing body. Directs PROs to investigate and arrive at a final disposition of all written beneficiary complaints about the quality of Medicare services which are filed with the PRO.

Requires PROs to share data with State agencies or national accreditation bodies responsible for licensing or accrediting providers or practioners if such data relates to a specific case or to a possible pattern of substandard care.

Directs providers to execute agreements with PROs for the provision of such new review activities. Reimburses providers for the costs of such agreements.

Subtitle E: Medicaid and Maternal and Child Health - Part I: Coverage of Individuals - Amends title XIX (Medicaid) of the Act to give States the option of extending coverage to women in need of pregnancy-related medical services and children up to age five whose family income exceeds current income eligibility thresholds, but does not exceed a State maximum income level to be established at or below the Federal poverty level. Leaves to each State's discretion the decision as to whether a resource standard shall be applied in determining the eligibility of such women and children, but prohibits the use of a more restrictive methodology than that used under the State plan under part A (Aid to Families with Dependent Children) of title VI of the Act. Prohibits States which provide coverage pursuant to this Act from reducing Aid to Families with Dependent Children (AFDC) payment levels after April 17, 1986.

Gives States the option of extending Medicaid coverage to elderly and disabled individuals with income too high to qualify for Medicaid under current income tests, but below a State maximum income level to be established at or below the Federal poverty level. Requires States providing coverage under this Act to provide Medicaid coverage to pregnant women and infants with income below a State maximum income level which, while at or below the Federal poverty level, is not necessarily the same as the level established for newly eligible aged and disabled individuals.

Authorizes the States to provide Medicaid coverage for Medicare premiums, deductibles, and coinsurance payments for which Medicare-eligible individuals with income below the State maximum income level would otherwise be accountable.

Provides Medicaid coverage to "qualified severely impaired individuals", defined as individuals under age 65 who received benefits under the Medicaid program and title XVI (Supplemental Security Income) (SSI) of the Act and who: (1) continue to be blind or have a disabling physical or mental impairment; (2) except for earnings, continue to meet all other SSI eligibility requirements; (3) without Medicaid coverage, would be seriously inhibited from continuing or obtaining employment; and (4) have earnings which are insufficient to provide a reasonable equivalent of the Medicaid, SSI, and attendant care benefits (under title XX of the Act) which would be available in the absence of such earnings.

Prohibits otherwise eligible individuals from being denied Medicaid benefits by reason of their failure to maintain a fixed address.

Prohibits Federal Medicaid participation payments for State expenditures on aliens who are not lawfully admitted for permanent residence or not permanently residing in the United States under color of law, unless such an alien requires emergency medical care and would otherwise be eligible for Medicaid.

Permits States to provide ambulatory prenatal care to women during a presumptive eligibility period not to exceed 45 days, if: (1) the woman has begun maternity care with a qualified provider; (2) the provider determines that the woman's family income falls below the applicable Medicaid standard and notifies the State of the woman's eligibility within five working days; and (3) the woman applies for such benefits within 14 days of being presumed eligible.

Gives States the option of covering home respiratory services for individuals who: (1) are medically dependent on a ventilator for life support for at least six hours a day; (2) have been so dependent for at least 30 consecutive days as inpatients; and (3) wish, and have adequate social support services, to be cared for at home.

Part 2: Provision of Services under Waiver Authority - Permits States to provide home and community-based Medicaid services to all individuals who, but for the provisions of such services, would require the level of Medicaid services provided in a skilled nursing or intermediate care facility or in a hospital. Authorizes States to limit their provision of Medicaid case management services to individuals with AIDS or AIDS-related conditions, or to individuals with chronic mental illness.

Waives certain Medicaid requirements to authorize the establishment of demonstration programs receiving specified private and public funding and providing a wide-range of services to chronically mentally ill Medicaid beneficiaries. Limits such programs to a three-year term with a possible two-year extension. Requires the Secretary to report to the Congress by 1993 on the services provided by such programs.

Directs the Secretary to grant Medicare and Medicaid waivers to up to ten public or non-profit private community-based organizations which have received a grant from the Robert Wood Johnson Foundation so that they may provide comprehensive health care services on a capitated basis to frail elderly patients at risk of institutionalization.

Continues, through June 30, 1989, the waiver of certain Medicare and Medicaid requirements for a Massachusetts demonstration project providing alternatives to hospital care for Medicaid-eligible nursing home patients.

Directs the Secretary to enter into an agreement with New Jersey to conduct a Medicaid demonstration project to be administered by a State health agency and provide respite care services to the elderly and disabled in order to determine the extent to which such services: (1) delay or avert the need for institutionalized care; and (2) support the family's provision of long-term care. Includes as respite care: (1) short-term sitter, homemaker, and personal-care services, adult day care, inpatient care, and emergency respite care; and (2) peer support and training for family caregivers. Provides that the State and Federal government shall each cover one-half of project costs, but sets a fiscal year limit on Federal outlays. Limits the duration of the project to four years, plus an additional period of up to six months for final evaluation and reporting. Sets forth reporting requirements.

Makes the Paperwork Reduction Act inapplicable to information required in implementing this part.

Part 3: Payments - Amends the Consolidated Budget Reconciliation Act of 1985 to hold a State harmless in FY 1987 against changes that Act effected in the annual calculation of the Federal medical assistance percentage under the Medicaid program if such changes would cause a reduction of Medicaid payments to the State in FY 1987.

Waives the prohibition of Medicaid payments for care provided preceding a three-month period before the date an application is filed by a potential Medicaid beneficiary to authorize payments to the Medical University of South Carolina for care provided between October 1, 1984, and June 30, 1985, to children and pregnant women who, but for the lack of an application, would have been eligible for such care under Medicaid at the time it was provided. Requires eligibility determinations to be made within six months of this Act's enactment.

Part 4: Other Quality and Efficiency Measures - Requires States to provide for independent, external reviews by PROs or private accreditation bodies, of the quality of services provided by HMOs.

Prohibits the Secretary from requiring States to operate Medicaid second surgical opinion programs or inpatient hospital preadmission review programs until 180 days after the Secretary submits a report (by October 1988) to the Congress on: (1) surgical procedure utilization patterns; (2) surgical procedures for which second opinion programs may be appropriate and the extent to which such programs impede access to necessary care; and (3) the number of physicians willing and qualified to perform second opinions. Directs the Secretary to conduct a study and report to the Congress by 1990 on the utilization of selected medical treatments and surgical procedures by Medicaid beneficiaries in order to assess the appropriateness, necessity, and effectiveness of such treatments and procedures.

Makes it clear that the Secretary has no authority to limit the amount of Medicaid payment adjustments that may be made with respect to hospitals that serve a disproportionate number of low-income patients with special needs.

Requires nonqualified HMOs to disclose to the State all transactions between the organization and a party in interest. Subjects all contracts with HMOs under which total Federal and State expenditures will exceed $100,000 to the prior approval of the Secretary. Directs the Secretary to delegate administrative responsibilities over State Medicaid Fraud Control Units to the Inspector General of the Department of Health and Human Services. Imposes a civil monetary penalty on prepaid health plans providing Medicaid services for each substantial failure to provide medically necessary items and services to a Medicaid beneficiary if such failure is or is likely to be detrimental to that individual.

Makes several technical corrections to, and clarifications of, the Consolidated Omnibus Budget Reconciliation Act of 1985.

Authorizes New York to pay the inpatient rate for hospital patients receiving services at an inappropriate level of care if the Secretary determines that enough hospital beds in the State have been decertified so as to reduce Medicaid payments to hospitals by an amount equal to or greater than any increase in such payments occasioned by reimbursements for inappropriate levels of care.

Part 5: Maternal and Child Health - Amends title V (Maternal and Infant Welfare) of the Act to increase the authorization level for the Maternal and Child Health Block Grant for FY 1987, 1988, and 1989. Sets aside a specified portion of funds in each such fiscal year for: (1) screening newborns for sickle-cell anemia and other genetic disorders; and (2) primary and specialized health care services and projects for children.

Directs the Secretary to establish a National Adoption Information Clearinghouse which collects, maintains, and disseminates information on various aspects of adoption.

Amends part E (Foster Care and Adoption Assistance) of title IV of the Act to direct the Secretary to create an Advisory Committee on Adoption and Foster Care Information to study and report to the Secretary and the Congress by October 1987 on the various methods of establishing, administering, and financing an adoption and foster care data collection system. Requires the Secretary to report to the Congress on a proposed data collection system by July 1988 and promulgate final regulations by 1989 providing for the system's full implementation by October 1991. Requires gathered information to be disseminated through the National Adoption Information Clearinghouse.

Subtitle F: Provisions Relating to Access to Health Care - Amends the Internal Revenue Code and the Employee Retirement Income Security Act of 1974 to make certain technical amendments relating to the continuation of employer-based health insurance coverage. Allows retirees to continue their coverage under an employer-based health insurance plan in the event of such employer's bankruptcy.

Provides that where a State is successful in an action involving tide or submerged lands on which such improvements were made, the State shall take title to the lands subject to any existing lease, easement, or right-of-way, even if the action was brought more than 12 years after the State learned of the Federal claims.

Immigration Reform and Control Act of 1986 - *Title I: Control of Illegal Immigration - Part A: Employment* - Amends the Immigration and Nationality Act to make it unlawful for a person or other entity to: (1) hire (including through subcontractors), recruit, or refer for a fee for U.S. employment any alien knowing that such person is unauthorized to work, or any person without verifying his or her work status; or (2) continue to employ an alien knowing of such person's unauthorized work status.

Makes verification compliance (including the use of State employment agency documentation) an affirmative defense to any hiring or referral violation.

Establishes an employment verification system. Requires: (1) the employer to attest, on a form developed by the Attorney General, that the employee's work status has been verified by examination of a passport, birth certificate, social security card, alien documentation papers, or other proof; (2) the worker to similarly attest that he or she is a U.S. citizen or national, or authorized alien; and (3) the employer to keep such records for three years in the case of referral or recruitment, or the later of three years or one year after employment termination in the case of hiring.

States that nothing in this Act shall be construed to authorize a national identity card or system.

Directs the President to monitor and evaluate the verification system and implement changes as necessary within 60 days after notifying the appropriate congressional committees (within two years for a major change). Prohibits implementation of a major change unless the Congress provides funds for such purpose. Authorizes related demonstration projects of up to three years.

Limits the use of such verification system or any required identification document to enforcing this Act and not for other law enforcement purposes.

Directs the Attorney General to establish complaint and investigation procedures which shall provide for: (1) individuals and entities to file written, signed complaints regarding potential hiring violations; (2) INS investigations of complaints with substantial probability of validity; (3) Department of Justice-initiated investigations; and (4) designation of a specific INS unit to prosecute such violations.

Sets forth employer sanction provisions. Provides for a six-month period of public education during which no employment violation penalties shall be imposed.

Provides for a subsequent 12-month period during which violators shall be issued warning citations. Defers enforcement for seasonal agricultural services.

Provides, at the end of such citation period, for graduated first and subsequent-offense civil penalties, injunctive remedies, or criminal penalties (for pattern or practice violations). Subjects violators to graduated civil penalties for related paperwork violations.

Directs the Attorney General to provide notice and, upon request, an administrative hearing in the case of a disputed penalty. States that: (1) judicial review of a final administrative penalty shall be in the U.S. court of appeals; and (2) suits to collect unpaid penalties shall be filed in U.S. district courts.

Makes it unlawful for an employer to require an employee to provide any type of financial guarantee or indemnity against any potential employment liability. Subjects violators, after notice and hearing opportunity, to a civil penalty for each violation and the return of any such amounts received.

States that such employer sanction provisions preempt State and local laws.

Requires the General Accounting Office (GAO) to submit to the Congress and to a specially created task force three annual reports regarding the operation of the employer sanction program, including a determination of whether a pattern of national origin discrimination has resulted. States that if the GAO report makes such a determination: (1) the task force shall so report to the Congress; and (2) the House and the Senate shall hold hearings within 60 days.

Terminates employer sanctions 30 days after receipt of the last GAO report if: (1) GAO finds a widespread pattern of discrimination has resulted from the employer sanctions; and (2) the Congress enacts a joint resolution within such 30-day period approving such findings.

Amends the Migrant and Seasonal Agricultural Worker Protection Act to subject farm labor contractors to the requirements of this Act, beginning seven months after enactment.

Directs the Attorney General, in consultation with the Secretary of Labor and the Secretary of Health and Human Services, to conduct a study of the use of a telephone system to verify the employment status of job applicants. Requires related congressional reports.

Directs the Comptroller General to: (1) investigate ways to reduce counterfeiting of social security account number cards; and (2) report to the appropriate congressional committees within one year.

Directs the Secretary of Health and Human Services, acting through the Social Security Administration and in cooperation with the Attorney General and the Secretary of Labor, to: (1) conduct a study of the feasibility of establishing a social security number validation system; and (2) report to the appropriate congressional committees within two years.

Makes it an unfair immigration-related employment practice for an employer of three or more persons to discriminate against any individual (other than an unauthorized alien) with respect to hiring, recruitment, firing, or referral for fee, because of such individual's origin or citizenship (or intended citizenship) status. States that it is not an unfair immigration-related employment practice to hire a U.S. citizen or national over an equally qualified alien.

Requires that complaints of violations of an immigration-related employment practice be filed with the Special Counsel for Immigration-Related Unfair Employment Practices (established by this Act) within the Department of Justice. Prohibits the overlap of immigration-related discrimination complaints and discrimination complaints filed with the Equal Employment Opportunity Commission.

Authorizes the Special Counsel to: (1) investigate complaints and determine (within 120 days) whether to bring such complaints before a specially trained administrative law judge; and (2) initiate investigations and complaints. Permits private actions if the Special Counsel does not file a complaint within such 120-day period. Sets forth related administrative provisions.

Makes it illegal to fraudulently misuse or manufacture entry or work documents.

Part B: Improvement of Enforcement and Services - States that essential elements of the immigration control and reform program established by this Act are increased enforcement and administrative activities of the Border Patrol, the Immigration and Naturalization Service (INS), and other appropriate Federal agencies.

Authorizes increased FY 1987 and 1988 appropriations for: (1) INS; and (2) the Executive Office of Immigration Review. Obligates increased funding in FY 1987 and 1988 for the border patrol.

Permits the owner or operator of a railroad line, international bridge, or toll road to request the Attorney General to inspect and approve measures taken to prevent aliens from illegally crossing into the United States. States that such approved measures shall be prima facie evidence of compliance with obligations under such Act to prevent illegal entries.

Expresses the sense of the Congress that the immigration laws of the United States should be vigorously enforced, while taking care to protect the rights and safety of U.S. citizens and aliens.

Requires INS to have an owner's consent or a warrant before entering a farm or outdoor operations to interrogate persons to determine if undocumented aliens are present.

Prohibits the adjustment of status to permanent resident for violators of (nonimmigrant) visa terms.

Title II: Legalization - Directs the Attorney General to adjust to temporary resident status those aliens who: (1) apply within 18 months; (2) establish that they entered the United States before January 1, 1982, and have resided here continuously in an unlawful status (including Cuban/Haitian entrants) since such date; and (3) are otherwise admissible.

Authorizes similar status adjustment for specified aliens who entered legally as nonimmigrants but whose period of authorized stay ended before January 1, 1982. (States that in the case of exchange visitors the two-year foreign residence requirement must have been met or waived.)

Prohibits the legalization of persons: (1) convicted of a felony or three or more misdemeanors in the United States; or (2) who have taken part in political, religious, or racial persecution. Requires an alien applying for temporary resident status to register under the Military Selective Service Act, if such Act so requires.

(Authorizes an exemption from such language and history requirement for individuals 65 years of age or older.)

Specifies circumstances in which the Attorney General may terminate an alien's temporary resident status. Permits travel abroad and employment during such period.

Authorizes the filing of status adjustment applications with the Attorney General or designated voluntary or governmental agencies. Directs the Attorney General to work with such agencies to: (1) disseminate program information; and (2) process aliens. Provides for the confidential treatment of application records. Establishes criminal penalties (fines, imprisonment, or both) for: (1) violations of such confidentiality; and (2) false application statements. Provides for application fees.

Waives numerical limitations, labor certification, and other specified entry violations for such aliens. Permits the Attorney General to waive other grounds for exclusion (except criminal, most drug-related, and security grounds) to assure family unity or when otherwise in the national interest.

Requires the Attorney General to provide an alien otherwise eligible but unregistered who is apprehended before the end of the application period, an opportunity to apply for the legalization program before deportation or exclusion proceedings are begun. States that such alien shall be authorized to work in the United States pending disposition of the case.

Provides for administrative and judicial review of a determination respecting an application for adjustment of status under this Act.

Makes legalized aliens (other than Cuban/Haitian entrants) ineligible for Federal financial assistance, Medicaid (with certain exceptions), or food stamps for five years following a grant of temporary resident status and for five years following a grant of permanent resident status (permits aid to the aged, blind, or disabled). States that programs authorized under the National School Lunch Act, the Child Nutrition Act of 1966, the Vocational Education Act of 1963, chapter 1 of the Education Consolidation and Improvement Act of 1981, the Headstart-Follow Through Act, the Job Training Partnership Act, title IV of the Higher Education Act of 1965, the Public Health Service Act, and titles V, XVI, and XX of the Social Security Act shall not be construed as prohibited assistance. Establishes procedures for the status adjustment to permanent resident of certain Cuban and Haitian entrants who arrived in the United States before January 1, 1982.

Updates from June 30, 1948, to January 1, 1972, the registry date for permanent entry admissions records.

Authorizes FY 1988 through 1991 appropriations for State legalization impact assistance grants. Permits States to spend unused funds through FY 1994. Prohibits offsets for Medicaid and supplemental security income costs. Bases State amounts on the number of legalized aliens and related expenditures. Permits States to use such funds to reimburse public assistance, health, and education costs. Limits reimbursement to actual costs.

Title III: Reform of Legal Immigration - Part A: Temporary Agricultural Workers - Separates temporary agricultural labor from other temporary labor for purposes of nonimmigrant (H-2A visa) worker provisions.

Requires an employer H-2A visa petition to certify that: (1) there are not enough local U.S. workers for the job; and (2) similarly employed U.S. workers' wages and working conditions will not be adversely affected. Authorizes the Secretary of Labor to charge application fees.

Prohibits the Secretary from approving such petition if: (1) the job is open because of a strike or lock-out; (2) the employer violated temporary worker admissions terms; (3) in a case where such workers are not covered by State workers' compensation laws, the employer has not provided equivalent protection at no cost to such workers; or (4) the employer has not made regional recruitment efforts in the traditional or expected labor supply.

Provides with regard to agricultural worker applications that: (1) the Secretary may not require such an application to be filed more than 60 days before needed; (2) the employer shall be notified in writing within seven days if the application requires perfecting; (3) the Secretary shall approve an acceptable application not later than 20 days before needed; and (4) the employer shall provide or secure housing meeting appropriate Federal, State, or local standards, including making provision for family housing for employees principally engaged in the range production of livestock.

Provides that for three years, labor certifications for specified employers shall require such an employer to hire qualified U.S. workers who apply until the end of 50 percent of the H-2A workers' contract work period. Requires the Secretary, six months before the end of such period, to consider the advisability of continuing such requirement and to issue regulations (in the absence of enacting legislation) three months before the end of such period.

States that employers shall not be liable for specified employment penalties if H-2A workers are dismissed in order to meet such 50 percent requirement.

Permits agricultural producer associations to file H-2A petitions.

Provides for expedited administrative appeals of denied certifications.

Prohibits the entry of an alien as an H-2A worker if he or she has violated a term of admission within the previous five years.

Authorizes permanent appropriations beginning in FY 1987 to enable the Secretary to make determinations and certifications.

Expresses the sense of the Congress that the President should establish an advisory commission to consult with Mexico and other appropriate countries and advise the Attorney General regarding the temporary worker program.

Establishes a special agricultural worker adjustment program. Provides for permanent resident adjustment for aliens who: (1) apply during a specified 18-month period; (2) have performed at least 90 man-days of seasonal agricultural work during the 12-month period ending May 1, 1986; and (3) are admissible as immigrants. Sets forth adjustment dates based upon periods of work performed in the United States. Authorizes travel and employment during such temporary residence period.

Directs the Secretaries of Agriculture and of Labor, jointly before each fiscal year (beginning in FY 1990 and ending in FY 1993) to determine whether additional special agricultural workers should be admitted because of a shortage of such workers in the United States. Sets forth factors to be considered in making such determinations.

Authorizes associations and groups of employers to request additional admissions due to emergency or unforeseen circumstances. Authorizes groups of special agricultural workers to request decreased admissions due to worker oversupply. Requires the Secretaries to make request determinations within 21 days.
